[a] Common respiratory diseases include laryngitis, acute catarrhal; tonsillitis, acute; tonsillitis, chronic; pharyngitis, acute catarrhal; rhinitis (cause not stated); nasal fossæ, other diseases of; bronchitis; pleurisy, suppurative and serofibrinous; and pleura, other diseases of.

[b] Probably during the influenza epidemic in the latter part of 1918 and thereafter, some measles admissions were recorded as from influenza.

[c] The pneumonias listed here separately were original causes of admission; pneumonias secondary to diseases other than influenza and measles are not included in this table. Pneumonias unclassified are included under bronchopneumonia.

[d] No deaths for camps which are omitted.

Source of information: Medical reports to the Surgeon General's Office.

TABLE 101.—*Deaths, influenza and common respiratory diseases, measles, and the pneumonias, by camps of occurrence, by months, white enlisted men, United States, Oct. 1, 1917, to Dec. 31, 1919, inclusive*—Continued.

[a] Common respiratory diseases include laryngitis, acute catarrhal; tonsillitis, acute; tonsillitis, chronic; pharyngitis, acute catarrhal; rhinitis (cause not stated); nasal fossæ, other diseases of; bronchitis; pleurisy, suppurative and serofibrinous; and pleura, other diseases of.

[b] Probably during the influenza epidemic in the latter part of 1918 and thereafter some measles admissions were recorded as from influenza.

[c] The pneumonias listed here separately were original causes of admission; pneumonias secondary to diseases other than influenza and measles are not included in this table. Pneumonias unclassified are included under bronchopneumonia.

[d] No admissions for camps which are omitted.

Source of information: Medical reports to the Surgeon General's Office.

TABLE 102.—*Admissions, influenza and common respiratory diseases, measles, and the pneumonias, by camps of occurrence, by months, colored enlisted men, United States, Oct. 1, 1917, to Dec. 31, 1919, inclusive*—Continued.

[a] Common respiratory diseases include laryngitis, acute catarrhal; tonsillitis, acute; tonsillitis, chronic; pharyngitis, acute catarrhal; rhinitis (cause not stated); nasal fossæ, other diseases of; bronchitis; pleurisy, suppurative and serofibrinus; and pleura, other diseases of.

[b] Since only 97 deaths from measles occurred among colored enlisted men in the United States, these deaths were not tabulated by camp.

[c] The pneumonias listed here separately were original causes of admission; pneumonias secondary to diseases other than influenza and measles are not included in this table. Pneumonias unclassified are included under bronchopneumonia.

[d] No deaths for camps which are omitted.

Source of information: Medical reports to the Surgeon General's Office.

[a] Statistics for North Russia and Siberia are so incomplete that it has been thought best not to include them.

Tables 45, page 86 and 121, page 1179 give all data available on this subject.
Source of information: Medical reports to the Surgeon General's Office.

APPENDIX

I. EXTRACTS FROM THE MANUAL FOR THE MEDICAL DEPARTMENT.[a]

(1916, corrected to June 15, 1918.)

REGISTER AND REPORT OF SICK AND WOUNDED.

THE REGISTER.

427. A full record of the sick and wounded of every military post or station and separate command which is attended by a medical officer or private physician will be made on register cards, Form 52; but this requirement will not be applicable in time of war to troops or commands in the theater of operations, except camp hospitals (or field hospitals acting as such), evacuation hospitals, base hospitals, and other immobile sanitary formations on the line of communications. (See pars. 575 to 582.) These cards collectively constitute the register of patients, and a case carded on them is said to be on the register.

(*a*) The commanding officer will provide the surgeon with any information the latter may not have which is necessary for preparing and completing the register.

428. A register card will be made:

(*a*) For every person admitted to the hospital for treatment.

(*b*) For every officer, enlisted man, Army field clerk, field clerk, Quartermaster Corps, and member of the Nurse Corps with the command, including retired officers and soldiers under assignment to active duty, who, though not admitted to the hospital, is excused on account of sickness or injury from the performance of his military duty, or some part of it, such as attendance on certain calls, drills, target practice, mounted duty, etc.

(*c*) For every officer, enlisted man, Army field clerk, field clerk, Quartermaster Corps, and member of the Nurse Corps with the command who, though not excused from duty, is prescribed for or treated, or placed under observation with a view to treatment or, in the case of an enlisted man, to discharge on account of disability, if his disability is of such a character as to have a probable bearing on his subsequent medical history: *Provided*, That a case once carded for record only under this provision will not again be carded for record only on the same register except when necessary to comply with the provisions of sections (*d*), (*e*), (*f*), and (*h*) of this paragraph. For example, every case of venereal disease or insanity, or suspected venereal disease or insanity, which comes under observation or treatment, will, unless previously on the register or otherwise required to be registered, be carded for record only under this provision. (C. M. M. D. No. 6, Feb. 14, 1918.)

(*d*) For every officer, enlisted man, Army field clerk, field clerk, Quartermaster Corps, and member of the Nurse Corps with the command, not currently on the register, who is retired or discharged for disability or dies.

(*e*) For every officer, enlisted man, Army field clerk, field clerk, Quartermaster Corps, and member of the Nurse Corps with the command, not currently on the register, who is sent to another station or command for observation or treatment: *Provided*, That this regulation shall not apply to commands which have no hospitals and which habitually send their hospital cases to a hospital in the near vicinity. (See par. 217½.)

(*f*) For every officer, Army field clerk, field clerk, Quartermaster Corps, and member of the Nurse Corps with the command, not currently on the register, who departs from the command on sick leave.

(*g*) For every officer, enlisted man, Army field clerk, field clerk, Quartermaster Corps, and member of the Nurse Corps with the command whose case is received by transfer conformably to the provisions of paragraphs 214 to 217.

(*h*) For every retired officer, retired soldier, former officer, former soldier, former Army field clerk, former field clerk, Quartermaster Corps, or former member of the Nurse Corps with the command but not in the hospital, who dies. (C. M. M. D. No. 8, June 15,1918.)

429. Except as required by paragraph 428 a case prescribed for but not admitted to hospital or excused from duty will not be registered.

[a] Material changes made during the war are given in detail. No special account is taken of minor changes save that in each such case the date and authority for the change appears in brackets at the end of the changed paragraph. Except for original paragraphs which are so important that it has been thought best to include them, the text represents that in effect at the end of the war.

430. Cases under treatment by the dentist will be entered on the register of sick and wounded only when such entry is required by the provisions of paragraph 428.

431. When an officer or soldier sick in hospital is retired from active service, wholly retired from service, dismissed, or discharged, his case as an officer or soldier will be closed (par. 450) and a new card made for it covering his continuance in hospital under his new status.

(*a*) If an applicant for enlistment sick in hospital is sworn in as a soldier, his case as a civilian will be closed and a new card made for his case as a soldier.

(*b*) Appropriate cross references from the old to the new cards, and vice versa, will be made in these cases.

432. The register cards will be made day by day as the cases are taken up. (See pars. 208*a* and 209.) They will be kept in two files, the current file and the permanent file.

(*a*) The current file will consist of the register cards of uncompleted cases arranged in dictionary order according to the surnames of the patients. It constitutes a ready index to all cases currently on the register. Cards will be transferred from the current file to the permanent file immediately upon their completion and the preparation of their report cards.

(*b*) The permanent file will comprise all the register cards of completed cases. The cards therein will be filed in the serial order of their register numbers.

(*c*) A card index to the register will be kept on Form 52*a*, one index card for each individual patient whose name appears in the register. When a register card is started and its number determined the index will be searched for previous admissions of the patient. If an index card for the patient is found, the new number will be entered thereon, and the number of the last previous admission will be noted on the new register card (par. 443). If no index card for the patient is found, one will be at once prepared. The index cards will be filed alphabetically in dictionary order according to the surnames of the patients.

433. Cases taken up on register cards should be borne thereon until finally disposed of. (See par. 450.)

434. The cards will be legibly written in indelible black ink, using the typewriter when practicable.

(*a*) Entries must not be crowded. When the space provided on the front of the card under any heading is not sufficient to complete an entry thereunder, the record thereof will be continued on the back of the card, or, if still more space is required, upon an extension slip. The extension slip must be of the same size as the card, and be pasted to the lower margin of the back of the card, using about one-half an inch for the seam; this will place the seam at the top of the card when the latter is filed. When an entry is continued its two parts should be connected by cross references, using a small letter in parentheses, thus, (*a*), so that the record can be readily followed.

435. The senior medical officer is responsible for the correctness and safe-keeping of the register. He will sign or initial all register cards completed during the period of his responsibility; but at general hospitals, or brigade posts, or when specially authorized by the Surgeon General, he may designate one or more junior medical officers to sign or initial them, preferably in each case the officer in attendance thereon.

(*a*) When, in the absence of a medical officer, the command is attended by a civilian physician, he will sign the cards for the cases completed under his care.

436. Alterations and additions when necessary to correct or complete the record may be made in the register cards of uncompleted cases at the discretion of the senior medical officer of the command for the time being. A change of diagnosis will be indicated in the space "complication, seq., etc.," giving the date of the change, and the original entry under "cause of admission" will not be disturbed.

(*a*) Alterations of and additions to the register card of a completed case may be made in like manner by the medical officer who was responsible for the card at the time it was completed if he is still the senior medical officer of the command. If he has been superseded the card will not be changed, but a successor who concludes, upon information received, that the card is erroneous in any particular, may file a supplemental card therewith of the same size as the register card, indicating thereon such conclusion and the information or reasons upon which it is based. The supplemental card will be headed "Supplemental card, No. ———," inserting the register number of the register card, and will be dated and signed by the officer filing it. A cross reference to the supplemental card identifying it by its date may appear upon the register card, but it will be a reference only, thus, "See supplemental card dated ———," and contain none of the matter recorded on the supplement. (See pars. 463 and 464.) (C. M. M. D., No. 6. Feb. 14, 1918.)

DIRECTIONS FOR PREPARING REGISTER CARDS.

(See pars. 208 to 213.)

437. *Name.*—Name should be correctly and legibly written. Initial letters or abbreviations may be used for middle names only.

438. *Rank, company, and regiment or staff corps.*—The usual abbreviations may be employed.

(*a*) Changes in the patient's rank, company, and regiment or corps while his case is current on the register will be recorded in this space, giving dates of changes.

(*b*) If the patients are discharged soldiers, applicants for enlistment, Army field clerks, field clerks, Quartermaster Corps, members of the Nurse Corps, or members of the Organized Militia, those facts, respectively, will be set forth on their cards under this heading, giving in the case of former soldiers the organization to which they last belonged, and in the case of militiamen their militia organization. Other civilians should be designated simply as civilians. (C. M. M. D., No. 8, June 15, 1918.)

439. *Age, years.*—The age at birthday nearest to date admitted is required.

440. *Race.*—Use "W.," "C.," "F.," "P. R.," "I.," meaning "white," "colored," "Filipino," "Porto Rican," or "Indian."

441. *Nativity.*—Place of birth; give State, if a native; country, if foreign. Usual abbreviations.

442. *Service, years.*—Give length of service to date of admission, in years and fractions thereof, whether continuous or not.

443. *Register No.*—Every card will have a number for convenience of reference. These numbers will be consecutive and will be carried forward indefinitely. In order that the medical history of a patient may be more readily traced, his last previous register number, if he has previously had a register card at the post, should be entered immediately before his current number.

(*a*) So long as a field command, attended by a medical officer or private physician, is unattached to a permanent station, or its hospital or infirmary is not discontinued by consolidation with that of another command, its register cards should be numbered continuously without regard to the various changes of its location.

444. *Date of admission.*—Under date of admission give the day, month, and year the case is taken up. Figures should not be used to designate the month.

445. *Source of admission.*—Indicate in this space the source from which the patient was directly received. Officers and enlisted men of the command are generally admitted "From command"; but may be "From desertion," etc. In the case of a casual, the name of his proper station should be given, in addition to the place from which he was directly received, thus, e. g.: "Casual from command, proper station, Fort A"; or "Casual from S. S. *Southland*, from Norfolk, Va., proper station, Fort B." In the case of an original admission from a passing or other command which is unaccompanied by a medical officer the fact should be recorded, thus, e. g.: "Detachment, Twelfth Infantry, en route A to B, unaccompanied by a medical officer."

(*a*) In the case of a patient received by formal transfer from another hospital or command (pars. 214 to 217) the name of such hospital or command will be given, with the date of the original entry of the case and its register number on the register thereof, if known. In the case of a patient received by informal transfer under the conditions recited in paragraph 217½ the name of his command only will be given, with the words "informal transfer" added.

(*b*) The following additional notations will be made in parentheses in this space:

1. In cases taken up under section (*c*), paragraph 428—(Carded for record only; under treatment [or observation] but not excused from duty).

2. In cases taken up under section (*d*)—(Carded for record only; not currently on the register).

3. In cases taken up under section (*e*)—(Carded for transfer only; on full duty while with command).

4. In cases taken up under section (*f*)—(Carded for record of sick leave only; on full duty while with command). (C. M. M. D., No. 6. Feb. 14, 1918.)

446. *Cause of admission.*—Give the name of the disease and its location if it is localized; or in case of injury, its cause, location, character, and severity, with the attending circumstances, date of occurrence, and nature of missile, weapon, or other producing agent. When the patient has two or more diseases or injuries at the time of admission, each of them will be recorded under this head. Should the original disability, or, if there is more than one, should any of them, be cured before the final disposition of the patient, the fact and date of such cure will also be stated

in this space. In the case of a patient received by transfer the diagnosis made at the receiving hospital will be recorded. If this diagnosis differs from that on the transfer card, the additional entry will be made, "Diagnosis on transfer card not concurred in." (See pars. 455 and 456.)

(*a*) In entering causes of admission distinction should be made between the primary or remote cause and the exciting or proximate cause, the latter being regarded as the cause of admission within the meaning of this paragraph. For example, cycloplegia produced for the purpose of measuring a refractive error should be recorded as the cause of admission, rather than the refractive error itself, which should be mentioned in brackets. So also, in a case admitted for operation to cure or correct a congenital or other defect, as, for example, hammer-toe or phimosis, no pathological condition being present which would of itself require admission, the purpose to operate is the cause of admission and should be so recorded by the words, "For operation," indicating the defect in brackets. It is necessary to observe this distinction with care, to assure proper determination of the question whether the actual cause of admission shall be recorded as in the line of duty or not. (See par. 448.)

447. The place of treatment, quarters or hospital, and the dates of changes from the one to the other, will be indicated in the cause-of-admission space.

448. *In line of duty.*—Herein will be recorded, in the case of every officer or enlisted man on the active list, of every Army field clerk and field clerk, Quartermaster Corps, of every member of the Nurse Corps, and of every officer and enlisted man on the retired list who is for the time being serving under an assignment to active duty, the opinion of the medical officer, based on a full consideration of all the facts, as to whether the cause of admission was incurred in the line of duty, it being understood that the entry relates to the immediate cause of admission as defined in paragraph 446*a*, and not to the remote cause. If the patient has two or more diseases or injuries at the time of admission, an opinion as to line of duty will be separately recorded for each. In forming and recording his opinion on this point the medical officer will be guided by the following instructions:

(*a*) [a] [An officer, Army field clerk, or field clerk, Quartermaster Corps, who has been passed as fit for service on physical examination upon entrance into the service, or a soldier or member of the Nurse Corps who has been accepted on his or her first physical examination after arrival at a military station as fit for service, shall be considered to have contracted in the line of duty any subsequently determined physical disability, unless such disability can be shown to be the result of the patient's own carelessness, misconduct, or vicious habits, or to have been contracted while absent from duty without permission, or unless the history of the case shows unmistakably that the disability existed prior to entrance into the service.] When the admission is for an operation or procedure which is designed to improve the patient's physical fitness or efficiency for the military service, such operation or procedure will be recorded as in the line of duty, without reference to the fact whether the condition to be remedied originated in the line of duty or not, provided that the primary cause is not the result of the patient's own misconduct.

(*b*) When an officer, enlisted man, Army field clerk, field clerk, Quartermaster Corps, or member of the Nurse Corps, is disabled while absent with leave, the question of line of duty must be determined by the circumstances attending the incurrence of the disability, but the fact of being so absent should be stated.

(*c*) When a medical officer expresses the opinion that an injury occurring during athletic sports, properly indulged in, was received in the line of duty, the opinion is accepted by the Surgeon General as satisfactory and final.

(*d*) In all cases in which the opinion is expressed by "no," and in cases of venereal diseases by "yes," the circumstances attending the incidence of the disability, and on which the opinion is based, should be stated under the diagnosis. (C. M. M. D., No. 8, June 15, 1918.)

449. *Complications, seq., etc.*—Herein will be recorded complications and intercurrent diseases appearing subsequent to admission, surgical operations, and changes of diagnosis. The date will be given in each instance.

(*a*) When the intercurrent disability subsequently appearing is in no way dependent on the primary affection, the medical officer will record in this space his opinion as to whether it originated

[a] Previous reading of sentence in brackets: All diseases or injuries from which an officer or enlisted man suffers while in the military service of the United States may be assumed to have occurred in line of duty unless the surgeon knows: First, that the disease or injury existed before entering the service; second, that it was contracted while absent from duty without permission; or third, that it occurred in consequence of willful neglect or immoral conduct of the man himself.

in the line of duty, with such explanatory remarks as may be necessary. Should it be cured before the final disposition of the patient, the fact and date of cure will also be recorded here.

(*b*) Upon recording a change of diagnosis the medical officer will also record in this space his opinion whether the disability as diagnosed by him originated in the line of duty, with appropriate explanatory remarks when necessary.

(*c*) In recording a surgical operation its character will be briefly described, giving the commonly accepted name for it. The word "operation" alone is not sufficient. In every case note should be made of the anesthetic used and of the time intervening between the onset of the disease or the receipt of the injury and the performance of the operation. (C. M. M. D., No. 6, Feb. 14, 1918.)

450. *Disposition.*—Herein record the completion of the case by entry specifying the method of its completion. Return to duty is always a completion of the case, including cases registered under the provisions of paragraph 428*c*. Transfer to another hospital (par. 214) completes the case on the medical records of the transferring hospital or command. Cases of officers, soldiers, Army field clerks, field clerks, Quartermaster Corps, and members of the Nurse Corps are completed by capture or any change in their military status which separates them from the active list of the Army, such as death, desertion, retirement, resignation, dismissal, or discharge from the service. (See par. 431.) (C. M. M. D., No. 8, June 15, 1918.) Cases of officers and enlisted men on the retired lists and of civilians registered upon their admission to hospital conformably to the provisions of paragraph 428*a* are completed, so far as the register is concerned, by their departure from hospital.

(*a*) When a patient departs from the command or hospital on ordinary or sick leave or furlough, his card will be completed by appropriate record of such departure, with a statement as to whether the cure was complete or not. Should he resume the status of sick upon his return from leave or furlough, his case will be registered anew.

(*b*) Register cards made for record only under paragraph 428*c*, the patient not having been excused from duty, should be completed at once, regardless of the continuance of treatment or observation, by entering "Doing full duty" under this head and repeating the date in the date-of-disposition space. Should the provisions of sections (*a*), (*b*), (*d*), (*e*), (*f*), or (*h*), paragraph 428 become applicable during continued treatment or observation, or subsequently, the case will again be registered in conformity therewith.

(*c*) Cases of death, and of retirement or discharge for disability, carded under the provisions of paragraph 428*d*, will be completed at once by entry in this space specifying the nature of the casualty.

(*d*) In case of death, the fact of death, and the result of the autopsy, if one was held, will be recorded in this space; also, if the death was not due to the cause of admission, the general, determining, and all contributing causes thereof, and a statement whether the cause originated in the service and in the line of duty, with an explanation of the circumstances upon which the opinion, if negative, is based. Should the cause of death in any case be unknown, a brief note of such circumstances as may throw light upon it will be entered. In case of suicide the cause or causes which led to the act will be stated.

(*e*) In case of retirement or discharge on account of wound or disease, the fact of retirement or discharge on such account, and the degree of disability, will be recorded under this head; also, if the wound or disease for which retired or discharged was not the cause of admission, the same will be fully described and statement recorded whether it originated in the line of duty. When the opinion expressed is "no," the circumstances attending the incidence of the wound or disease on which the negative opinion is based will be recorded. (C. M. M. D., Feb. 14, 1918.)

(*f*) The cases of patients who are retired from active service, or wholly retired or discharged from the service, by order, sentence, operation of law, or expiration of term should be completed by entry specifying such fact; and a statement should be made of the degree of disability due to the complaint for which the individual was under treatment at the time of his separation from the service, unless it was unquestionably not received in the line of duty.

(*g*) The cases of officer patients who depart from the hospital or command in obedience to orders to proceed to their homes and await retirement will be completed upon such departure by recording the fact thereof and its date.

(*h*) When the disease or injury causing death or discharge has been aggravated by the willful and persistent refusal of the patient to submit to such reasonable restrictions, methods of treatment, or surgical operations as would, in the opinion of the medical officer, have conduced to the cure or to the lessening of the disability, the fact should be noted.

(*i*) When a patient is returned to duty the entry "duty" will suffice, the cure being assumed to be complete unless a statement to the contrary is entered.

(*j*) In case of transfer to another hospital or command, the specific destination of the patient should be stated.

(*k*) Desertion is final disposition of the case and the card should be completed accordingly. Should the deserter come again under military control and resume the status of sick, a new card will be made for him as for a new case, conformably to the general rule. (C. M. M. D., Nos. 6 and 8.)

451. *Date of disposition.*—Give day, month, and year of disposition. Figures should not be used to designate months. In all cases of discharge on certificate of disability the date of discharge as given in the letter of notification from the adjutant will be recorded.

452. *Name of hospital, etc.*—Enter in this space on every register card the designation of the hospital, establishment, or organization to which the register pertains, and its location or locations during the period covered by the card. Spaces 19 and 20 ("Sent with report of S. & W. for the month of ——" and "from") need not be filled out on the register card.

453[a]. *Classifications.*—Spaces 22, 23, 24, and 25 at the bottom of the face of the card are for the use of the Surgeon General's Office only, and will not be filled out on the register or report cards.

454. [Space 26]. [b] "Days of treatment in current case," on back of card, will be filled out month by month on the register card extending the table as may be necessary for cases remaining from one year to another. The day of admission will be counted as a day of treatment in every case. The day of return to duty will not be counted as a day of treatment. The day of disposition for all other cases under treatment will be counted as a day of treatment, except for patients transferred to a station or hospital in the near vicinity, who should arrive at such station or hospital on the same day.

* * * * * * *

456. The following special requirements will be observed:

(*a*) Pathological lesions should be recorded rather than their symptoms.

(*b*) In all cases in which the cause of admission is a local manifestation of a general affection the character and locality of the one and the nature of the other should be stated.

(*c*) The organ or part affected should be specified when the name of the morbid condition fails to indicate it, as in paralysis, aneurism, ulcer, herpes, etc.; also in inflammations, as adenitis, osteitis, arthritis, synovitis, etc., and in local injuries, as abrasions, burns, contusions, dislocations, etc.

(*d*) Inflammations should be reported as acute or chronic, and the grade of the inflammatory condition of the mucous membranes, whether catarrhal or suppurative, should be stated.

(*e*) The term "heart disease" should not be recorded when the special affection can be determined.

(*f*) In pulmonary affections the lobe or lobes involved should be designated; also, in the case of diseases that are not always bilateral, whether the disease is confined to the right or left or extends to both lungs. The complications of pleurisy should be particularly noted.

(*g*) Deviations from the normal in cases of impairment of vision or hearing should be ascertained and noted.

(*h*) In case of injury, its character, location, and severity should be stated, the date of its occurrence should be given, its cause should be noted, the nature of the missile, weapon, or other producing agent shown, and the circumstances attending its origin indicated. If it was accidental, that fact should appear. If it was intentional, the record should show whether it was judicial, homicidal, suicidal, self-inflicted, or otherwise, as the case may be. In gunshot wounds the points of entrance and exit of the missile and the parts indicated should be recorded.

(*i*) Fractures should be designated as simple, comminuted, compound, or complicated, the character of the complications being stated.

(*j*) The exact location, variety, and cause of hernia should be given, and, when strangulated, the condition and the means employed for relief.

(*k*) Diseases due to venereal contagion, to the abuse of stimulants or narcotics, or to immoral practices should be so recorded.

(*l*) Distinction should be made between inflammations of venereal origin and those of nonvenereal origin, as in cases of balanitis, orchitis, bubo, etc., specifying the nature of the venereal cause and the causation in the nonvenereal cases.

---

[a] Rescinded, C. M. M. D. No. 9, Oct. 10, 1918.

[b] Words in brackets omitted by same circular.

(*m*) Distinction should also be made between the venereal ulcer known as chancroid and the hard chancre of primary syphilis.

(*n*) The terms "venereal warts," "venereal bubo," etc., are indefinite and should not be used. The lesion should be recorded and its specific cause stated.

(*o*) When the case is an old disease or injury that fact will be recorded by the word "old" in parentheses in the causes of admission space, followed by the diagnosis, showing the original disease or injury, and its condition at the date of current admission. If there is no record in the register of the original disease or injury record will also be made under this head of its origin (date, place, cause, attending circumstances, etc., as may be appropriate); but if the record of origin appears in the register for a previous admission the same need not be repeated, but may be referred to as follows: "For original disease or injury, see Reg. No. ——."

(*p*) In all cases of poisoning the name of the poison should be given.

(*q*) Special notes should be made of cases of malingering or feigned diseases and of the means employed for their detection.

(*r*) When no diagnosis can be reached, the fact should be stated, together with the conditions which prevent the recognition of the disease or injury. (C. M. M. D., No. 6. Feb. 14, 1918.)

REPORT OF SICK AND WOUNDED.

457. The report of sick and wounded comprises, (1) the report sheet (Form 51), which provides for general information and numerical tabulations concerning the command and the civilians therewith; (2) the nominal check list (Forms 51*a* and 51*b*) for a chronological list of cases registered; (3) the report cards (Form 52) for details of the several cases.

458. Subject to exceptions similar to those indicated in paragraph 427, this report is required monthly from every military post and separate command which is attended by a medical officer or civilian physician. It will be rendered separately for regular and volunteer troops, that of regulars to embrace all data pertaining to civilians. It will be forwarded before the fifth day of the next succeeding month as follows: From a general hospital or other independent post or command direct to the Surgeon General, unless otherwise ordered by him; from a transoceanic Army transport to the medical superintendent of the transport service at the transport's home port, for transmittal to the Surgeon General; and from any other organization or hospital to the department surgeon for like transmittal.

(*a*) When a hospital is closed or a command is discontinued a report covering the unreported period of service, giving the beginning and the end thereof, will in like manner be forwarded within five days thereafter.

(*b*) If there has been no case on sick report, either remaining from last report or admitted during the month, Form 51 will nevertheless be forwarded. It will give the name and strength of the command, etc., with such remarks as may be deemed of interest to the department surgeon or the Surgeon General.

459. All births and marriages occurring at the post or with the command and all deaths among the civilians with the command will be recorded on the report of sick and wounded under the heading "Births, marriages, and deaths."

460. A report card is required for every case registered during the month, and if the case is not completed until a subsequent month a second report card will be forwarded with the report for the month during which it is completed. With the report for December, report cards will be forwarded also for all cases remaining December 31 which were registered previous to December.

(*a*) A duplicate of the report sheet and of the nominal list will be retained with the medical records of the post or command. At a permanent post the duplicate report sheets will be filed in and form a part of its medical history. (See par. 412.)

(*b*) The senior medical officer will fill in and sign the certificate at the foot of the first page of the report sheet. (See par. 400.) The report cards will be initialed as provided in paragraph 435 for register cards. If there is neither medical officer nor civilian physician with the command when the report is to be made, the officer in charge of the property of the hospital will make the report over his own signature and initial the cards. (C. M. M. D., No. 6. Feb. 14, 1918.)

461. Reports of sick and wounded received by a department surgeon will be promptly subjected to a critical examination, and such memoranda taken therefrom as he may need for the purposes of his office. Should he find the papers correct, he will forward them at once by informal indorsement, e. g., dating stamp on the report sheet, to the Surgeon General. Should he find any errors therein, he will immediately by letter to the responsible surgeon call attention to the same and

direct the necessary action for their correction. He will not, however, detain the papers in his office awaiting correction, but will as in the other event forward them at once to the Surgeon General in like manner with a copy of his letter in the premises. The surgeon should reply to the department surgeon's letter by indorsement thereon. (See also pars. 462, 463, and 464.) After the reply has been noted by the department surgeon it will be forwarded without delay to the Surgeon General.

CORRECTIONS OF AND ADDITIONS TO REPORT CARDS AFTER THEIR RENDITION.

462. Rescinded. (C. M. M. D., No. 6.)

463. When the diagnosis is changed, or a complication or intercurrent disability is noted, or other corrections or alterations are made on the register card of a remaining case before its completion (par. 436) and after the first report card of the case has been forwarded, a new card, signed by the senior medical officer, marked "Correction card" in the upper margin of the front of the card, indicating plainly what the changes, corrections, or alterations are, will be forwarded with the next ensuing monthly report: *Provided*, That when the case is completed upon the next ensuing monthly report the card required upon the completion of the case under paragraph 460 will be sufficient, and a separate correction card will not be forwarded, but every variance from the first report card of the case will be explained by the term "corrected entry" noted on the back with proper reference for connecting the record as indicated in paragraph 434*a*. (C. M. M. D., No. 6.)

464. When the register card of a completed case is altered under paragraph 436*a* after its final report card has been rendered, a correction card similarly marked and signed by the senior medical officer, showing plainly all the alterations, will be immediately forwarded to the Surgeon General through the usual channel. When a supplemental card is filed with the register card of a completed case conformably to paragraph 436*a*, a full and exact copy thereof marked "Transcript of supplemental card" in the upper margin on the front of the card will be at once forwarded likewise. (C. M. M. D., No. 6. Feb. 14, 1918.)

* * * * * * *

RECORDS OF SICK AND WOUNDED.

567. During and after an engagement diagnosis tags will be attached to all wounded and dead as soon as practicable. They will be made out in duplicate.

568. In the case of wounded the primary purpose of the tag is to advise the medical officers under whose observation the wounded successively come of the treatment previously given at the several points of relief on the field or on the way to the rear.

569. The tag will be made out by the first medical officer or member of the Hospital Corps who treats the man previous to admission to a hospital on the line of communications. (It is unnecessary to tag a patient who is admitted to a hospital on the line of communications without having been previously tagged.) If the patient is badly hurt, the identification tag may be utilized to obtain the necessary information concerning his name, rank, etc. The original diagnosis tag will be attached to the patient's clothing.

570. The dead found on the field will be tagged in each case by the Medical Department troops who first reach the body, in order that other medical personnel may not lose time examining it. The tag will be attached to the clothing of the deceased.

571. The duplicates of the diagnosis tags will be disposed of as follows:

(*a*) Those made out by the sanitary personnel of an organization for the officers and soldiers of their own command will be retained by the surgeon until disposed of as provided in paragraph 574.

(*b*) Those made out for officers and soldiers of other commands will be transmitted as soon as possible after the close of each day of an engagement to the division surgeon, accompanied by the check list directed to be sent to that officer by paragraph 579.

572. The original tags will be disposed of as follows:

(*a*) Those of wounded who are returned from aid stations to the firing line without going farther to the rear will be removed and retained by the regimental surgeon.

(*b*) Those of wounded who are returned to their organizations direct from dressing stations (par. 682) or from the station for slightly wounded (par. 714*a*) will be removed upon their reporting for duty and be turned over to the surgeons of their several organizations, respectively.

(*c*) Those of wounded who are admitted to a field hospital and retained there for definitive treatment will be removed and forwarded to the division surgeon. If the patients are subsequently

Paragraphs 465 to 566, inclusive, deal with subjects other than records of sick and wounded.

transferred to the line of communications, they will not be retagged, but will be accompanied by transfer lists in regular form (par. 583).

(*d*) Those of wounded who are being evacuated from the zone of the advance will not be disturbed until the patients are admitted to hospital on the line of communications, when the tags will be removed, stamped with the name of the admitting hospital, and the date of receipt of the patient, and forwarded immediately to the division surgeon of the division to which the wounded belong.

(*e*) Those of wounded who die while in transit from the field to hospital (the death in each case being noted on the tag as required by the printed instructions in the tag book), and the tags attached to the dead found on the field, will be removed when the bodies are prepared for interment or equivalent disposal, and will be sent likewise to the division surgeon.

573. The division surgeon will cause the tags received by him in compliance with paragraphs 571 and 572 to be distributed without delay to the senior medical officers of the commands to which the men tagged belong, so that they may be available in accounting for officers or soldiers who would otherwise be carried as missing on the returns of their organizations.

574. Having served their purpose in completing the records of the organizations, all the tags, both originals and duplicates, will be forwarded with the next periodical lists of sick and wounded therefrom.

575. The register of patients prescribed by paragraph 427 and the monthly report of sick and wounded by paragraph 458 are not required from mobile troops or commands in the theater of operations. In lieu thereof a record or list of the sick and wounded with every mobile command in the theater of operations which is accompanied by a medical officer will be kept day by day by such officer on Form 53, as directed in the following paragraphs and in the instructions printed on the form. Field hospitals immobilized and acting as camp hospitals, evacuation hospitals, base hospitals, supply depots, contagious-disease hospitals, field laboratories, and other similar sanitary formations will not be regarded as mobile units within the meaning of this paragraph, but will keep the register of patients and render monthly reports of sick and wounded in accordance with the regular rule.

576. The list of sick and wounded will contain a record of the following cases:

(*a*) Every officer, soldier, Army field clerk, field clerk, Quartermaster Corps, or member of the Nurse Corps with the command who is excused from duty on account of sickness or injury, or who receives a wound of any character in action whether it involves excuse from duty or not.

(*b*) Every officer, soldier, Army field clerk, field clerk, Quartermaster Corps, or member of the Nurse Corps with the command, not currently on the list, who is sent to another command or place for observation or treatment.

(*c*) Every officer, Army field clerk, field clerk, Quartermaster Corps, or member of the Nurse Corps not currently on the list who departs from the command on sick leave.

(*d*) Every officer, soldier, Army field clerk, field clerk, Quartermaster Corps, or member of the Nurse Corps with the command, not currently on the list, who is retired, or discharged for disability, or dies; and every civilian with the command who dies. (C. M. M. D. No. 8.)

577. In determining the cases to be entered on the list of sick and wounded under the provisions of paragraph 576, officers, soldiers, Army field clerks, field clerks, Quartermaster Corps, and members of the Nurse Corps who are killed or wounded in action will be considered as with the command by whose sanitary personnel they are tagged. The names of such persons will therefore not necessarily appear on the list of sick and wounded of their own organization. (See par. 579*a*.) (C. M. M. D. No. 8.)

578. Except as provided in paragraph 580, the list of sick and wounded will be made in duplicate, and at the end of the month covered by it the original thereof will be forwarded through medical channels to the Surgeon General. The duplicate will be retained.

579. After the close of each day of an engagement the casualties resulting from the action will be entered on the monthly list of sick and wounded in two groups, first those suffered by the personnel of the organization making the list, second those occurring among the personnel of other organizations. An extra carbon copy of that portion of the list containing entries of the first group will be made and sent immediately to the organization commander to enable him to prepare his return of casualties (Form 149, A. G. O.) or, if preferred, the extra carbon copy for the organization commander may be made on Form 149 direct, as the size and ruling of the two forms are similar. An extra carbon copy of that portion of the list containing entries of the second group will be made in like manner and immediately sent to the division surgeon in order that there may be at the

headquarters of the division a check upon the names of men reported as missing in the casualty returns of the organizations to which they belong.

(*a*) In entering on the list of sick and wounded the casualties resulting from an engagement there should be included only those cases which have not been previously tagged by members of other organizations and in the case of field hospitals those retained for definitive treatment (par. 572*c*), except that all cases transferred to the line of communications should be recorded by the organization transferring them in order that there may be a record within the division of the final disposition of such cases. (See par. 577.)

580. Stations for slightly wounded will make a single copy of the list of sick and wounded. At the end of each day and when the station is closed the list will be sent at once to the division surgeon.

581. Evacuation ambulance companies should include in their list of sick and wounded only such cases as pertain to their own personnel and such cases as may, under exceptional circumstances, fall into their hands without having been previously tagged by other sanitary formations.

582. Hospital trains and hospital ships make complete lists in regular monthly form only of cases occurring among their own personnel and, in the case of a hospital ship, of cases admitted thereto for definitive treatment.

583. Where patients are transferred from mobile organizations at the front to the line of communications a nominal list of them should if practicable be prepared in duplicate by the transferring officer, the original of which should be receipted and returned to him by the receiving officer. Extra carbon copies of so much as may be pertinent of the transferring officer's regular list on Form 53 may be made for this purpose. Transfers from camp hospitals in the zone of the advance, should there be any such, will be accomplished by regular transfer cards (par. 575).

(*a*) The duplicates of the nominal lists mentioned, or the transfer cards as the case may be, furnished as above to an evacuation ambulance company, will be turned over to the evacuation hospital or other sanitary formation to which it delivers the patients. Similar disposition will be made by a hospital train or hospital ship of the nominal lists or transfer cards received by it.

584. Should a hospital train or hospital ship receive patients unaccompanied by nominal lists or transfer cards, the commanding officer of the train or ship will as soon as practicable prepare a nominal list of such patients on Form 53 (separate and apart from his regular monthly list of sick and wounded) for disposition as above provided. Should the preparation of such a list be impracticable, he will list the patients who seem to be in danger of death so as to be able, if death occurs, to report the necessary details.

(*a*) Should any of the cases be lost en route by death, capture, etc., he will without delay report the cases so lost, giving the date and nature of the loss, to the surgeon, base group, or if the movement of the sick and wounded is under the immediate direction of the Surgeon General, direct to him, forwarding with such report the transfer cards (if any have been received) of the patients so lost.

(*b*) In the case of sick and wounded necessarily left at a hospital other than the one designated to receive them, their transfer cards, or a nominal list, as the case may be, will be left with the commanding officer of such hospital, and a similar report of the patients so disposed of will be made at once.

II. SICK AND WOUNDED REPORTS FOR THE AMERICAN EXPEDITIONARY FORCES.

Effective June 15, 1918.

(Prepared under the direction of the Chief Surgeon, A. E. F.)

[G. H. Q. American Expeditionary Forces.

The following reports and returns of sick and wounded and methods of preparing the same are prescribed for the American Expeditionary Forces. All paragraphs of the Manual for the Medical Department dealing with the heretofore existing methods of reporting sick and wounded in conflict with these instructions are suspended.

By command of General Pershing:

JAMES G. HARBORD, *Chief of Staff.*

Official:

BENJ. ALVORD, *Adjutant General.*

I. FORMS.

(*a*) Diagnosis tag.

(*b*) Daily report of casualties and changes (Form No. 4, A. G. O., S. D., A. E. F.).

(*c*) Daily report of casualties and changes of patients in hospital (Form No. 22, A. G. O., S. D., A. E. F.).

(*d*) Field medical card and envelope (Form No. 1, M. D., A. E. F.).

(*e*) Register card (Form No. 52, M. D., U. S. A.), to be used as a combination index record card and as a report for completed cases only.

II. DIAGNOSIS TAG.

1. Diagnosis tag will be used by the medical personnel in the trenches, at battalion aid stations, regimental aid stations, and regimental infirmaries, also by attending surgeons and others without hospitalization facilities (ambulance companies and hospital trains).

2. In the trenches the tag will be attached, as soon as practicable, to the clothing of all wounded and dead. If the patient is seriously wounded the metal identification tag may be utilized to obtain the necessary information as to name, rank, etc.

3. The dead found on the field will be tagged in each case by the medical officer or member of the Hospital Corps who first reaches the body, in order that other medical personnel may not waste time examining them. For the information of the Graves Registration Service, Q. M. C., the original tags will remain on the body.

4. When used by regimental infirmaries, attending surgeons, surgeons of ambulance companies, and others without hospital facilities, the original tag corresponds to a transfer card and will be attached to all patients who are transferred to hospitals for further treatment.

5. The duplicate tag will be used as an aid to the regimental surgeon in making up his daily report of casualties (Form No. 4, A. G. O., S. D., A. E. F.). They must not be torn from the book. Book containing duplicates will be forwarded direct to the Chief Surgeon's Office, A. E. F., as soon as the last tag is used.

6. The original tag will be removed, when the field medical card is started, and placed in the field medical card envelope, constituting a part of the soldier's sick record.

7. If the soldier is returned to duty from the regimental aid station, battalion aid station, dressing station, without admission to a hospital, the original tag is of no further value and should be destroyed.

8. If the patient dies en route from the trenches to a regimental or battalion aid station, dressing station, or hospital, the time and place of death and the hospital where the patient was delivered will be entered on the back of the tag under the heading, "Supplemental Record." If the

body is otherwise disposed of, the proper entry will be made in this space. The tag will be delivered promptly to the formation to which the patient was destined, and the responsible medical officer of that formation will forward it to the Chief Surgeon, A. E. F.

9. For all deaths not occurring in action, in hospitals, or en route to hospitals a written report to the Chief Surgeon's Office will be made promptly by the medical officer under whose observation the case comes.

III. INSTRUCTIONS FOR FILLING IN DIAGNOSIS TAG.

1. *Diagnosis.*—Under "diagnosis" note essential facts concerning the character of the disease. The general term "pyodermia" may be used to include furuncle, carbuncle, abscess of skin, dermatitis, ecthyma, impetigo, paronychia, and ulcer.

2. In case of wounds or injuries, the terms "battle casualty," "willfully self-inflicted," or "accidental" will be used, according to the circumstances.

3. The general term "gunshot wound" may be used for all wounds or injuries caused by flying missiles propelled by an explosive gas, such as shell fragments, shrapnel, bomb, etc.

4. For bayonet, lance, or sword wounds, or burns, the agent will be specified.

5. The location of wounds will be stated, using the following regional nomenclature: Abdomen, chest, back, buttock, thigh, leg, foot, toe, shoulder, arm, forearm, hand, finger, face, scalp, head, neck, spine, perineum, genital organs. Side affected will be specified in each case. Where several wounds exist the general term "multiple" may be used instead of itemizing the regions.

6. For local injuries, such as burns, bruises, contusions, or dislocations, the organ or part affected will be specified when the name of the morbid condition fails to indicate it.

7. In gas cases specify the gas, and state whether the casualty was caused by inhalation of gas, use of food or water which has been poisoned by gas, or by surface contact.

8. For all other traumatisms the location, nature, and causative agent will be given.

9. Whenever fracture, serious hemorrhage, or surgical shock are complications the fact will be stated. Fractures will be designated as simple, compound, or comminuted.

10. "Slight" or "severe" will be stated according to circumstances. Sample diagnosis: "G. S. W., battle, severe, right thigh, fracture, comminuted, right femur."

11. In cases of death the words "killed in action," if applicable, must be used. If death was suicidal, accidental, homicidal, or judicial, the fact will be entered in addition to the cause of death.

12. "In action" may be construed to mean all wounds or deaths resulting through direct acts of the enemy or occurring in actions in which hostile forces, regardless of their numbers, are engaged in physical combat with each other.

The term includes aerial and submarine attacks, wherever they occur, and cases of soldiers wounded or killed in their own barrage. No wounds or deaths occurring in training camps will be considered "in action."

13. *Treatment.*—Under "treatment" note the dose and time of administration of morphine and antitetanic serum.

14. When a splint or tourniquet has been applied that fact should be stated.

15. Time and date of application of tourniquet should be specified.

16. If subsequent operation or treatment is urgent, the word "URGENT" will be added in large letters.

IV. DAILY REPORT OF CASUALTIES AND CHANGES (FORM NO. 4, A. G. O., S. D., A. E. F.).

1. All surgeons required to use diagnosis tags will also keep a Form No. 4, A. G. O., S. D., A. E. F., entries on which will be made daily.

2. This daily report of casualties and changes will contain name, rank, organization, and a brief diagnosis, which data are to be taken from the duplicate diagnosis tags.

3. Hospitals will keep a daily report of casualties and changes among their personnel only.

4. The daily report of casualties and changes will be used as an aid in tracing the sick and wounded and to aid the statistical officer in completing his reports.

5. In determining the cases to be entered, officers and soldiers who are killed in action will be considered as with the command by whose sanitary personnel they were tagged. The names of such officers or soldiers will, therefore, not necessarily appear on the daily report of casualties and changes of their own organization.

6. In entering on the daily report of casualties and changes the casualties resulting from an engagement, there should be included only cases which have not been previously tagged by members of other organizations.

7. The daily report of casualties and changes will be retained by the surgeon making it out and no copy is required to be forwarded to the Chief Surgeon's office.

V. DAILY REPORT OF CASUALTIES AND CHANGES OF PATIENTS IN HOSPITAL (FORM NO. 22, A. G. O., S. D., A. E. F.).

1. At all hospitals five copies of the daily report of casualties and changes of patients in hospital (Form No. 22, A. G. O., S. D., A. E. F.) will be made. One copy will be retained, two copies forwarded to statistical officer attached to headquarters to which reports are made, and two sent to the Chief Surgeon, A. E. F.

2. The following directions for preparing daily casualty roll will govern:

(*a*) All information to be grouped in the following order, writing the proper heading across the page:

First heading: *Admissions.*—Give "source from which received, line of duty, own misconduct." (Ambulance or hospital trains will not be considered as source of admissions.)

Second heading: *Change of diagnosis.*—Important changes only. "From ..... To ....."

Third heading: *Death.*—State whether from wounds in action, line of duty, own misconduct.

Fourth heading: *Discharge from hospital.*—Return to duty or United States. (In former case specify where sent.)

Fifth heading: *Transfer to other hospitals.*—(Give name of hospital to which transferred.)

Sixth heading: Such other information as is required by instructions on form.

(*b*) All cases falling under each heading are to be grouped under that heading. For example, in the case of a patient admitted and discharged on the same day, his admission will be grouped with other admissions, his discharge with other discharges.

(*c*) Diagnosis to be given for each case under each heading. It should be the first entry under column "Casualties and changes."

(*d*) Diagnosis will include nature of disease, injury, or wound.

VI. FIELD MEDICAL CARD (FORM 1, M. D., A. E. F.).

1. The purpose of the field medical card is to advise medical officers, under whose observation the wounded successively come, of the treatment previously given at the several points of relief, in the field or on the way to the rear, and to act as a transfer card. The clinical data called for should be brief and comprehensive.

2. It will be started at the dressing station, field hospital, evacuation hospital, camp hospital, base hospital, or general hospital, depending on to which one the patient was first admitted, and it will accompany the patient, attached to his clothing, until his case is finally disposed of.

3. When the field medical card is started, the diagnosis tag will be utilized to obtain any necessary information concerning name, rank, etc., of the patient, the diagnosis and other pertinent data with reference to previous treatment. If inaccurate or incomplete information is given on the tag, the proper modification will be made on the field medical card. Where circumstances preclude full diagnoses, and the patient is to be transferred to the rear, only brief diagnoses are required; with this exception, the diagnoses will conform to the nomenclature of disease and affections.

4. Each organization will take proper care to record correctly all data called for on the medical card. Where space is lacking for an entry under its designation, the entry may be made on the back of the field medical card, reference being made to it by an asterisk (*).

5. All entries made by medical officers should be authenticated by their signature at the bottom of the space. In cases where the full name appears once on the card initials may be used for subsequent entries.

6. Upon the completion of the case the field medical card, envelope, and diagnosis tag will be forwarded with a report card to the Chief Surgeon of the American Expeditionary Forces, in compliance with Section XI, except that for cases transferred to the United States field envelope and contents will accompany the patient.

7. History cards or sheets, laboratory and X-ray blanks that may be of importance, will be forwarded in the envelope with the field medical card.

VII. FIELD MEDICAL ENVELOPE (FORM NO. 2, M. D., A. E. F.).

1. The field medical envelope is an invoice sheet for the individual case. It should be accurately made out and should always be securely tied to the clothing of the patient over the sternum. In it will be placed all papers concerning the patient.

2. Motor ambulance convoys and hospital trains will take proper care to record special treatment, including the dose and time of administration of morphine, in the space allotted to such organizations.

3. Where space is lacking for any entry under its designation, the entry will be made on the back of the envelope, reference being made to it by an asterisk (*).

VIII. TRANSFER CARDS.

1. For cases actually delivered to transport surgeons for return to the United States, a transfer card identical with the report card, but having in addition the words "Transfer card" written across the top, will be sent with the patient.

IX. REGISTER INDEX CARD AND REPORT CARD (FORM NO. 52, M. D., U. S. A.).

1. Register index card (Form No. 52) will be made at all hospitals upon admission of the case, and will show the data entered on the field medical card.

2. In case the patient is transferred to another hospital, the register card as originally made out will be retained as a record and as an aid in tracing patients or answering inquiries.

3. A register index card will be made for every person admitted to the hospital for treatment, and for every officer and enlisted man with the command, not currently on the register, who dies.

4. The register index cards will be made day by day as the cases are admitted, and it is suggested that separate files be kept for patients still in hospital, for those transferred to other hospitals and for completed cases. The files should be arranged in dictionary order according to the surnames of the patients.

5. Alterations and additions to the register cards of completed cases will be authenticated by the medical officer making the alteration.

6. If the case is completed in the sense of paragraph 11 of this section, the register card will be completely filled in and a duplicate made which will be known as the "Report card."

7. Officers or enlisted personnel of the United States Navy or Marine Corps, members of the Army Nurse Corps, civilians attached to the American Expeditionary Forces, and prisoners of war, admitted to A. E. F. hospitals, shall be reported in the same manner as military patients from the American Expeditionary Forces. No report card to be made out for cases from the native civilian population or military patients of the allied forces.

8. The cards will be legibly written in indelible black ink, using the typewriter when practicable.

9. Entries must not be crowded. When the space provided on the front of the card under any heading is not sufficient to complete an entry, the record thereof will be continued on the back of the card, or, if still more space is required, upon an extension slip. The extension slip must be of the same size as the card, and be pasted to the lower margin of the back of the card, using about one-half an inch of the seam; this will place the seam at the top of the card when the latter is filled. When an entry is continued its two parts should be connected by cross references, using a small letter in parentheses, thus (a), so that the record can be readily followed.

10. Change of diagnosis will be made in the space "Complications, seq., etc.," giving the date of the change. The original diagnosis under "Cause of admission" will not be altered.

11. Report cards will be made at field hospitals, camp hospitals, base hospitals, general hospitals, and evacuation hospitals, for completed cases only—meaning cases returned to duty, retired, resigned, or discharged from the service, deserted, returned to the United States or died, or, in other words, all cases closed and not to be treated by other units of the A. E. F.

12. Such history and clinical records as may be necessary, including laboratory and X-ray blanks, will be made and retained as hospital records or forwarded with the patient on transfer to another hospital as indicated in Section VI, paragraph 7.

X. DIRECTIONS FOR PREPARING REGISTER CARDS.

1. *Name.*—The name should be correctly and legibly written, giving first name and surname in full; initial or abbreviation may be used for middle name only.

2. *Rank*, company and regiment or staff corps (for rank, etc., the usual abbreviations may be employed). Changes in the patient's rank, company, or regiment while his case is current on register will be recorded in this space, giving dates of changes.

3. Civilians and nurses should be designated as such under heading "Rank." Members of the naval and marine forces or prisoners of war, if patients, should be designated as such under the proper heading.

4. *Age, years.*—The age at birthday nearest to date admitted is required.

5. *Race.*—Use "W," "B," "Y," "R," "O," meaning "white," "black," "yellow," "red," and "others."

6. *Nativity.*—Place of birth; give State, if a native; country, if foreign. Usual abbreviation.

7. *Service, years.*—Give length of service to date of admission, in years and twelfths, whether continuous or not.

8. The register number will be omitted and the identification number of a soldier will be entered in its stead.

9. Under "Date of admission," give the day, month, and year which the data on the field medical card or diagnosis tag indicate was his first admission to a medical formation. This applies also to patients transferred to American hospitals from hospitals of the Allies.

10. *Cause of admission* (see Sec. XVII).—Give the name of the disease and its location if it is localized; or, in case of injury, its cause, location, character, and severity, with the attending circumstances, date of occurrence and nature of missile, weapon or other producing agent. When the patient has two or more diseases or injuries at the time of admission, each of them will be recorded under this head. Should the original disability, or, if there is more than one, should any of them, be cured before the final disposition of the patient, the fact and date of such cure will also be stated in this space.

11. The original diagnosis as set forth on diagnosis tag and field medical card should be used invariably, except where such terms as "not yet diagnosed" or "unknown" are used. In these cases the earliest definite diagnosis should be adopted. (For subsequent changes of diagnosis see Sec. IX, pars. 5 and 10.) The following exceptions to the provisions of the preceding paragraph must be made:

(*a*) When the original case has been completed, the patient discharged from hospital and is later readmitted for reconstruction, the word "reconstruction" should be entered in this space, stating definitely the defect.

(*b*) When the original admission is for operation to cure or correct a congenital or other defect, as, for example, hammer-toe or phimosis, the purpose to operate is the cause of admission and should be so recorded by the words "for operation," indicating the defect in brackets.

12. *In line of duty.*—Herein will be recorded, in the case of every officer or enlisted man on the active list, and of every officer and enlisted man on the retired list who is for the time serving under an assignment to active duty, the opinion of the medical officer, based on a full consideration of all the facts, as to whether the cause of admission was incurred in the line of duty, it being understood that the entry relates to the immediate cause of admission, and not to the remote cause. If the patient has two or more diseases or injuries at the time of admission, an opinion as to line of duty will be separately recorded for each. In forming and recording his opinion on this point the medical officer will be guided by the following instructions:

(*a*) All diseases or injuries from which an officer or enlisted man suffers while in the military service of the United States may be assumed to have occurred in the line of duty, unless the surgeon knows: First, that the disease or injury existed before entering the service; second, that it was contracted while absent from duty without permission; third, that it occurred in consequence of willful neglect or immoral conduct of the man himself; or, fourth, where the injury is self-inflicted. When the patient is admitted for an operation or procedure which is designed to improve his physical fitness or efficiency for the military service, such operation or procedure will be recorded as in the line of duty, without reference to the fact whether the condition to be remedied originated in the line of duty or not, provided that the primary cause is not the result of the patient's own misconduct.

(*b*) When a soldier is disabled while absent with leave, the question of line of duty must be determined by the circumstances attending the incurrence of the disability, but the fact of being so absent should be stated.

(*c*) When a medical officer expresses the opinion that an injury occurring during athletic sports, properly indulged in, was received in the line of duty, the opinion is accepted by the Surgeon General as satisfactory and final.

(*d*) In all cases in which the opinion is expressed by "no," and in cases of venereal diseases by "yes," the circumstances attending the incidence of the disability, and on which the opinion is based, should be stated under the diagnosis.

13. *Complications, seq., etc.*—Herein will be recorded complications and intercurrent diseases appearing subsequent to admission, surgical operations, and changes of diagnosis. The date will be given in each instance.

(*a*) When the intercurrent disability subsequently appearing is in no way dependent on the primary affection, the medical officer will record in this place his opinion as to whether it originated in the line of duty, with such explanatory remarks as may be necessary. Should it be cured before the final disposition of the patient the fact and date of cure will also be recorded here.

(*b*) Upon recording a change of diagnosis the medical officer will also record in this space his opinion whether the disability as diagnosed by him originated in the line of duty, with appropriate explanatory remarks when necessary.

(*c*) In recording a surgical operation its character will be briefly described, giving the commonly accepted name for it. The word "operation" alone is not sufficient. In every case note should be made of the anesthetic used, and of the time intervening between the onset of the disease, or the receipt of the injury, and the performance of the operation. If surgical shock preceded or followed operation, that fact should be stated.

14. *Disposition.*—Under "disposition," record the completion of the case by entry specifying the method of its completion. All cases are completed by return to duty, death, desertion, retirement, resignation, dismissal, discharge from the service, return to the United States, or by departure from the hospital on ordinary or sick leave or furlough.

(*a*) In the latter case a statement as to whether the cure was complete or not will be made on the card, and should the patient resume the status of sick upon return from leave or furlough the case will be registered anew.

(*b*) In case of death, the fact of death, and the result of the autopsy, if one was held, will be recorded in this space; also, if the death was due to the cause of admission, the general, determining and all contributing causes thereof, and a statement whether the cause of death originated in the service and in the line of duty, with an explanation of the circumstances upon which the opinion, if negative, is based. Should the cause of death in any case be unknown, a brief note of circumstances that throw light upon the subject will be entered. In case of suicide the cause or causes which led to the act will be stated.

(*c*) In case of retirement or discharge on account of wounds or disease, the fact of retirement or discharge on such account, and the degree of the disability will be recorded under this head; also, if the wound or disease for which retired or discharged was not the cause of admission, the same will be fully described and statement recorded whether it originated in the line of duty. When the opinion expressed is "no," the circumstances attending the incidence of the disability and on which the negative opinion is based should be recorded.

(*d*) The cases of patients who are retired from active service, or wholly retired or discharged from the service, by order, sentence, operation of law, or expiration of term, should be completed by entry specifying such fact; and a statement should be made of the degree of disability due to the complaint for which the individual was under treatment at the time of his separation from the service, unless it was unquestionably not received in the line of duty.

(*e*) The cases of officer patients who depart from the hospital or command in obedience to orders to proceed to the United States and await retirement will be completed upon such departure by recording the fact thereof and its date.

(*f*) When the disease or injury causing death or discharge has been aggravated by the willful and persistent refusal of the patient to submit to such reasonable restrictions, methods of treatment, or surgical operations as would, in the opinion of the medical officer, have conduced to the cure or to the lessening of the disability, the fact should be noted.

(*g*) When a patient is returned to duty the entry, "duty," will suffice, the cure being assumed to be complete, unless a statement to the contrary is entered.

(*h*) Desertion is final disposition of the case, and the card should be completed accordingly. Should the deserter come again under military control and resume the status of sick, a new card will be made for him as for a new case, conformably to the general rule.

15. *Date of disposition.*—Give day, month, and year of disposition. Figures should not be used to designate months. In all cases returned to the United States for disposition on certificate of disability, the date of embarkation will be recorded.

16. *Name of hospital, etc.*—Enter in this space on every register card the designation of the hospital or medical formation to which the register pertains. Spaces 19 and 20 ("Sent with report of S. and W. for the month of ———" and "from") will not be filled out on the register card.

17. *Classification.*—Spaces 22, 23, 24, and 25, at the bottom of the face of the card are for the use of the Surgeon General's Office only, and will not be filled out on the register or report cards.

18. Space 26, "Days of treatment in current case," on back of card, will be filled out month by month on the register card, extending the table as may be necessary for cases remaining from one year to another. The day of admission will be counted as a day of treatment in every case. The day of completion of the case will *not* be counted as a day of treatment.

XI. REPORT OF SICK AND WOUNDED.

1. The report of sick and wounded will be composed of the nominal check list (Forms 51–A and 51–B), and report cards (Form 52), field envelope and contents, for all cases completed during the month in the sense of Section IX, paragraph 11, except for cases transferred to the United States. (See Sec. VIII.) Columns under headings. "Register No." and "Month completed" (Forms 51–A and 51–B) will not be made out. Entries under "Name" will be made in dictionary order.

2. The report will be submitted by all hospitals, and forwarded before the fifth day of the next succeeding month to the Chief Surgeon, A. E. F., direct.

3. Whenever practicable, courier service or other safe and rapid means should be used.

4. Great care will be exercised to see that the report is accurate in every detail.

5. The senior medical officer is responsible for the correctness and safe-keeping of the register. He will personally initial all report cards completed during the period of his responsibility, or he may designate one or more junior medical officers to initial them, preferably the officer in attendance.

* * * * * * *

XIV. A. E. F. PATIENTS TREATED IN FRENCH MEDICAL FORMATIONS.

1. For all patients of the A. E. F. received by A. E. F. hospitals from French medical formations, translation shall be made of the French records and the data entered on the regular A. E. F. forms. Thenceforth the case will be treated for the purpose of record and report as if it had already been in an American formation.

2. The French Service de Santé has been requested to evacuate all American patients to A. E. F. base hospitals as soon as transfer can be made without risk to the patient. If, for any reason, the transfer of such a patient necessitates the presence of a nurse or attendant, the surgeon of the American hospital will send the necessary attendants and transportation (ambulances) upon request of the médécin-chef of the French formation in order to insure the transfer in a satisfactory manner.

3. All clothes and other property of American soldiers who die in French sanitary formations or hospitals will be sent to the "Bureau de Pensions," who will transmit them to the nearest American effects depot.

XV. A. E. F. PATIENTS TREATED IN BRITISH HOSPITALS IN FRANCE.

1. For A. E. F. patients received from British medical formations the British field medical card and envelope will be utilized in place of the A. E. F. forms, and the case will be treated for record and report as if it had always been in A. E. F. formations. United States base hospital units serving with the British in France will forward the British field medical card, etc., together with the report card, for all A. E. F. cases completed in those units.

2. For cases transferred from United States base hospital units serving with the British to A. E. F. hospitals, the British field medical card, etc., will accompany the patient to such hospital. The same shall be true in the case of a patient transferred to British hospitals in France or England.

Paragraphs omitted deal with subjects not under consideration.

3553—25——77

XVI. ALLIED PATIENTS IN A. E. F. HOSPITALS.

1. The procedure for cases of the Allies admitted to A. E. F. hospitals will be the same as that for our own patients, with the following exceptions:

(*a*) Where the patient has previously been handled by Allied formations, diagnosis tag, field medical card, etc., of the A. E. F. will not be substituted for the ones already used.

(*b*) Each month a report of casualties and changes will be sent to the Chief Surgeon's office, A. E. F., giving name, rank, organization, diagnosis, date of admission, and date of disposition, if any has been made.

2. French patients who may be hospitalized in American sanitary formations will be evacuated to the nearest French hospital as soon as their transfer can be made without risk. The evacuation will take place without any formalities, other than a previous understanding on the subject with the médécin-chef of the French hospital. If the case is evacuated, all medical and surgical documents which may be useful to the French will follow the patient.

3. All clothes and other property of French soldiers who die in American sanitary formations or hospitals will be sent to the "Bureau des Successions," 1 Rue Lacretelle, Paris.

4. If the case of a French soldier is completed in an A. E. F. base hospital, the medical data pertaining to the patient will be turned over to the French representative with the unit, or where no such representative has been appointed, will be sent to the Chief Surgeon's office, with the nominal roll.

XVII. NOMENCLATURE OF DISEASES AND AFFECTIONS AND RULES FOR RECORDING DISABILITIES.

1. Disease and injuries will, so far as practicable, be recorded on the register in accordance with the following table of diagnostic terms.[a] The table is not intended to prescribe a hard and fast rule, to be literally complied with in every particular, but rather to furnish a guide which in practice should be substantially followed. When diseases or injuries occur for which no terms are furnished in the table, or for which the terms furnished are general in character, they will be recorded under such scientific terms commonly applied to them by the profession as will briefly and accurately describe them.

(*a*) The letter L in parentheses following a term indicates that the *location* of the disability must be recorded; the letter C its *cause;* and the letter V its *variety.*

2. The following special requirements will be observed:

(*a*) Pathological lesions should be recorded rather than their symptoms.

(*b*) In all cases in which the cause of admission is a local manifestation of a general affection the character and locality of the one and the nature of the other should be stated.

(*c*) The organ or part affected should be specified when the name of the morbid condition fails to indicate it, as in paralysis, aneurysm, ulcer, herpes, etc.; also in inflammations, as adenitis, osteitis, arthritis, synovitis, etc.

(*d*) The term "heart disease" should not be recorded when the special affection can be determined.

(*e*) In pulmonary affections the lobe or lobes involved should be designated; also, in the case of diseases that are not always bilateral, whether the disease is confined to the right or left or extends to both lungs. The complications of pleurisy should be particularly noted.

(*f*) Diseases due to venereal contagion, to the abuse of stimulants or narcotics, or to immoral practices should be so recorded.

(*g*) Distinction should be made between inflammations of venereal origin and those of nonvenereal origin, as in cases of balanitis, orchitis, bubo, etc., specifying the nature of the venereal cause and the causation of the nonvenereal cases.

(*h*) Distinction should also be made between the venereal ulcer known as chancroid and the hard chancre of primary syphilis.

(*i*) The terms "venereal warts," "venereal bubo," etc., are indefinite and should not be used. The lesion should be recorded and its specific cause stated.

(*j*) Where a case is admitted to hospital for recurrence or relapse of a disease, or for an injury for which he has previously been treated, the word "old" will be set forth in parentheses after the diagnosis.

(*k*) In all cases of poisoning the name of the poison should be given.

(*l*) Special notes should be made of cases of malingering or feigned diseases and of the means employed for their detection.

[a] The list, which includes all diseases and injuries likely to be encountered, arranged according to system or part involved, is omitted.

(*m*) When no diagnosis can be reached, the fact should be stated, together with the condition which prevent the recognition of the disease or injury.

(*n*) The term "shell shock" will not be accepted as a diagnosis of disability or death. Conditions commonly referred to as "shell shock" should be reported under:

(*a*) Psychoneuroses (Section VI, "Nomenclature of Diseases").

(*b*) Concussion (Section XVIII, "Nomenclature of Diseases").

(*c*) Exhaustion (Section XVIII, "Nomenclature of Diseases").

* * * * * * *

XIX. APPROVED ABBREVIATIONS.

M.—Morphine.
A. T. S.—Antitetanic serum.
F. S.—Fracture simple.
F. C.—Fracture compound.
F. C. C.—Fracture compound comminuted.
G. S. W.—Wounds produced by flying missiles propelled by an explosive gas.
O.—Slight.
S.—Severe.
N. Y. D.—Not yet diagnosed, or undetermined.
F. U. O.—Fever of unknown origin.
D. A. H.—Disordered action of heart.
N. D. R.—Notifiable disease reported.

XX. DISCONTINUED FORMS.

Use of the following Medical Department forms will be discontinued in the A. E. F.: 51, 53; 83, 84, 85, 211.

Special attention of all organization surgeons is directed to the fact that, in the system authorized by this order, the carding of "Quarters" cases is not contemplated, nor will any cases, in the future, be "carded for record (or transfer) only," as formerly required by paragraphs 428 and 445 (b) M. M. D.

The foregoing will become effective on June 15, 1918.

For all patients remaining in hospital on that date the field medical card and envelope will be made out.

III. SICK AND WOUNDED FORMS.

INSTRUCTIONS

1. This form will be used, conformably to the provisions of the Manual for the Medical Department, for recording and reporting in time of war the sick and wounded with every mobile command in the theater of operations which is accompanied by a medical officer.

2. The cases will be entered on this list in the order of the dates on which they come under the observation or control of the sanitary personnel of the command; or, if separated from the command by death, discharge, departure on sick leave, etc., one being at the time on the list, according to the dates of such separation. Casualties suffered on a single day during an engagement, as shown by the duplicate diagnosis tags, will be entered in two groups, *first*, those among members of the command, second, those among members of other commands, each group in the following order: (1) killed; (2) wounded; (3) otherwise injured. In entering casualties incurred in action, only those should be included which have not been previously tagged by members of other organizations—except, first, that all cases which are retained by a field hospital for definitive treatment will be invariably entered on the list of such hospital, and, second, that all cases transferred to the line of communications will be entered on the list of the organization transferring them. The entries will be numbered from 1 upward consecutively in a single series beginning with the entrance of the command into the theater of operations.

3. Each case will be completed, conformably to the requirements of the Manual concerning the register of patients, by appropriate entry in the *Disposition* column. Cases of wounded who are sent from a station in advance to a station farther to the rear, but within the division, will be completed on the list as "sent to the rear." Cases turned over to the line of communications from a station within the division will be completed by indicating the fact of transfer and naming the sanitary formations to which they are transferred. Cases transferred from mobile sanitary formations on the line of communications will be completed in like manner. In the case of a patient who dies en route (as shown by the diagnosis tag) before reaching an evacuation or base hospital the additional entry "died en route," with the date of death, will be made on the list of the command to which the deceased belonged.

4. Cases which have not been completed with the command on or before the last day of the month (or which have not been disposed of at a station for slightly wounded on the day they are first listed) will be recorded in the *Disposition* column as "remaining." They will be again recorded at the top of the list for the succeeding month (or day, at a station for slightly wounded) under the heading "Remaining from the previous list" written across the face of the list, and will be separated from the current entries on the new list by a ruled line. In recording cases brought forward from the preceding list only the number, name, rank, organization, and disposition need be given; except that if the diagnosis is changed the new diagnosis will be given, with affirmative remark "Change of diagnosis."

5. All the sheets used will be fastened together at the end of the month (or day, at a station for slightly wounded) in the order of the serial numbers of the cases; the last sheet will be signed, the others initialed, by the proper officer; and the list disposed of as provided in the Manual.

6. An indelible pencil and carbon paper may be used in preparing the list. The original should be forwarded.

7. This form may be used, as provided in the Manual, for reporting casualties to the division surgeon and to the commander of the organization immediately after an engagement, and for invoices or nominal lists of patients transferred from one command to another.

DATE Oct. 11, 1918. Report No. 5

INSTRUCTIONS TO HOSPITALS FOR THE DAILY REPORT OF CASUALTIES AND CHANGES.

(A) This form to be used only for patients in hospitals or infirmaries acting as such.

(B) All information to be grouped in the following order, writing the proper headings across the page.
1st Heading—Admissions (Give "Source" of Admission, "Line of Duty," "Own Misconduct"). Note: "Line of Duty," or "Not in Line of Duty"; use abbreviation "L." or "N".
2nd Heading—Change of diagnosis (Important changes only).
3rd Heading—Died (State whether from wounds in action, sickness, line of duty or own misconduct).
4th Heading—Discharge from hospital (Return to duty or United States; in former case specify where sent).
5th Heading—Transfer to other hospitals (Give name or number of hospital to which transferred).
6th Heading—A. W. O. L.—Give date and hour if possible.
7th Heading—Deserted—Give all information available.
8th Heading—Confinement—Give authority, particulars to extent of.
9th Heading—Promotions and Demotions—Give authority and date of same.
10th Heading—Any change of person to be notified in emergency, or change of address of person to be notified, must also be entered.

(C) All cases falling under each heading are to be grouped under that heading.

(D) Diagnosis to be given for each case under each heading. It should be the first entry under colomn "Casualties and Changes".

(E) Diagnosis will include nature of disease, injury or wound, also regional location, whether slight or severe ("O" or "S"), in action or accidently incurred. ("I. A." or "Acft.").

(F) Any other information of vital or informative value respecting individual should be given, the particular fact in each instance being written out.

(G) Six copies to be made: three for Statistical Officer through which reports are forwarded, two for Chief Surgeon direct, A. E. F.; one to be retained.

REMARKS:

FORM 51
MEDICAL DEPARTMENT, U. S. ARMY
(Revised Feb. 15, 1916)

INSTRUCTIONS

1. The Report of Sick and Wounded comprises the report sheet, Form 51, and the nominal check list, Forms 52 and 53, and this report card, Form 52.

2. The mean strength of the command for the period covered by this report will be added together by heads or items (officers, enlisted men, and civilians) and divided by the number of days in the period. The mean strength of the command, for the purpose of this report of sick, will be added together by heads or items (officers, enlisted men, and civilians) and divided by the number of days in the period. The mean strength of the command is the total number of officers, enlisted men, and civilians present for duty, plus the sick, wounded, and other absentees who are borne on the rolls of the command, but are not present for duty, and divided by the number of days in the period. The mean strength of the command is the total items are the mean strength by items, and their sum is the total mean strength.

(a) The following is the rule for commands which are intact. When, however, a part of the command is on field or detached service accompanied by a medical officer, who will himself conveniently ascertain the mean strength of his detachment, such detachment should be made in computing the strength of the main or permanent station. Conversely, when the sick and injured among the troops constituted by transfer, or the strength of the command in the vicinity of the command, but are not present for duty, are habitually admitted to the hospital or infirmary, or taken up on the register, such hospital or infirmary should be made in computing the strength of the command.

(b) The mean strength of Medical Department organizations, such as general hospitals, base hospitals, evacuation hospitals, field hospitals, sanitary trains, ambulance companies, field hospital and ambulance companies, and the like, will be the mean strength of such organizations and their detachments, including the personnel therewith who were admitted by transfer (except sick and wounded from the command).

3. The number of civilians with the command will be inserted in the diagram on the third fold of this sheet, together with the number of deaths among them during the month. The number of civilians on the retired lists who are not under reinforcement to active duty, ex-soldiers, ex-sailors, applicants for enlistment who have not been accepted, and persons who have been honorably discharged from the service of the United States, all have the status of civilians for the purpose of this tabulation which with army commands.

4. The name, rank, etc., of the father, if a soldier, sailor, or marine of the child, name, rank, etc., of the father, if a soldier, sailor, or marine, and the maiden name of the mother, and whether the child was born in wedlock, the full name, rank, etc., of the father, if a civilian, occupation, the maiden name of the mother, and whether the child was born in wedlock, will be given in the case of births. The record of marriages will give the date of the marriage, the full name, rank, etc., of the groom, and the name, age, and birthplace of the bride. The record of deaths will show the date of the death, the full name, rank, etc., of the deceased, and the cause of death, as the latter stands on the last day covered by the report, except that in the case of deaths from wounds received in action the cause will be stated as the latter stands on the last day covered by the report.

5. The report card will be a full and exact transcript of its register and will be filled out on report cards from mobile or field commands as follows: After the word "from" will be noted the location on the last day, is the same as that given in space 18, then if it is different from the location given in space 18, if however the location on the last day is the same as that given in space 18, then filled out on the report cards from a permanent station, the word "same" will be noted. The name of the command will be inserted in one place. Space 20 on the report card of a case brought in that case during the current year entitled. The days of treatment on the front of the card, and the upper margin on the back.

6. Entries on the report sheet, nominal lists, and report cards should be made with the typewriter, when possible. They should be plainly written, using permanent black ink.

7. Report should be made in duplicate, the original to the Surgeon General, U. S. Army, Washington, D. C., and a duplicate to the commanding officer, to reach the former not later than the 10th, and again forward in like manner, thus producing four folds with the designation of the months, etc., and month on the outside.

NOMINAL CHECK LIST FOR REPORT OF SICK AND WOUNDED AT

Walter Reed General Hospital, Washington, D.C.

For July, 1919

INSTRUCTIONS.—The list for January in each year will give in sequence of register numbers the names, etc., of all patients, military or civilian, remaining from the previous year, and of all registered during the month. The list for any subsequent month will give in like sequence the names, etc., of patients registered during the month, omitting the names of those remaining from the previous month. The column "Month Completed" will not be filled in at post on the list forwarded; but entry therein should be made on the retained list as cases are completed. In the case of civilian patients the word "Civilian" will be entered across the columns "Rank," "Co.," "Organization." A duplicate of the list will be retained with the medical records of the post or command

Adhesions, peritoneal—Continued.
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months—
colored enlisted men in Europe 512, 516
white, enlisted men in Europe 358, 360, 370, 372
white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 944, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in the United States 386, 388, 402, 404
Admissions:
battle injuries—
by arms of service, by months, total officers and enlisted men, absolute numbers and ratios per 1,000 1025
by military agents, officers, and enlisted men, absolute numbers, and ratios per 1,000 1019
officers and enlisted men, absolute numbers and ratios per 1,000 1017
by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States, absolute numbers 834–857
colored enlisted men in the United States, ratios per 1,000 858–881
white enlisted men in the United States, absolute numbers 678–707
white enlisted men in the United States, ratios per 1,000 708–737
by countries, including transports—
officers and enlisted men, absolute numbers 86–109
officers and enlisted men, ratios per 1,000 110–132
by months—
colored enlisted men in Europe, absolute numbers 470–485
colored enlisted men in Europe, annual ratios per 1,000 486–493
colored enlisted men in the United States, absolute numbers 438–453
colored enlisted men in the United States, annual ratios per 1,000 454–469
enlisted men, color not stated, in Europe, absolute numbers 560–567
white enlisted men in Europe, absolute numbers 294–309
white enlisted men in Europe, annual ratios per 1,000 310–325
white enlisted men in the United States, absolute numbers 262–277
white enlisted men, in the United States, annual ratios per 1,000 278–293
external causes of (excluding battle injuries) by countries, officers and enlisted men 102, 104, 126, 128
influenza and common respiratory diseases, measles, and the pneumonias, by camps of occurrence, by months—
colored enlisted men, United States, absolute numbers 994–1006
white enlisted men, United States absolute numbers 962–977
Admissions and deaths:
for battle injuries and killed in action, by arms of service, total officers and enlisted men, absolute numbers, ratios per 1,000, and case fatality rates 1028
for diseases, enlisted men, United States and Europe, absolute numbers, ratios per 1,000, and percentage rates 576–579
nonbattle injuries, total Army, absolute numbers, ratios per 1,000 strength, rate per 1,000 of total nonbattle injuries, and case fatality rates 1015
Admissions, deaths, and case fatality rates:
battle injuries—
by gunshot missiles, officers and enlisted men, absolute numbers and percentage rates 1023
by poisonous gases, officers and enlisted men, absolute numbers and percentage rates 1023
by region and by military agent, single and multiple wounds, officers and enlisted men 1024
Admissions, deaths, discharges for disability and days lost, including killed in action, total Army, excluding North Russia and Siberia, absolute numbers, ratios per 1,000 and percentages 1180
Admissions for diseases (all), by camps, by months, total enlisted men, United States, absolute numbers 954–955

Page.
Aërial bombing:
admissions, battle injuries, officers and enlisted men 1019
days lost in hospital, battle injuries, officers and enlisted men 1023
deaths, battle injuries, officers and enlisted men 1021
discharges for disability, battle injuries, officers and enlisted men 1022
Aerogenes capsulatus infection:
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 678, 680, 682, 708, 710, 712
admissions by countries, officers and enlisted men 86, 88, 110, 112
admissions by months—
white enlisted men in Europe 294, 296, 310, 312
white enlisted men in the United States 262, 264, 278, 280
concurrent diseases, complications, and sequelæ, enlisted men, in the United States and Europe 580, 582, 584, 586, 588, 590, 592, 594, 596
days lost, by countries, officers and enlisted men 214, 216, 238, 240
Aëroplane, battle injuries by:
admissions, officers and enlisted men 1019
days lost in hospital, officers and enlisted men 1023
deaths, officers and enlisted men 1021
discharges for disability, officers and enlisted men 1022
Aëroplane, nonbattle injuries by:
admissions, by countries, officers and enlisted men 106, 108, 130, 132
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Age:
deaths, and discharges for disability, by total officers, and white and colored enlisted men in the United States and Europe, absolute numbers 670–677
strength by, officers and enlisted men, United States and Europe 25
Agent causing injury (excluding battle injuries):
admissions, by countries, officers and enlisted men 106, 108, 130, 132
deaths, by countries, officers and enlisted men 146, 148, 162, 164
Agent not stated:
admissions, battle injuries, officers and enlisted men 1019
days lost in hospital, battle injuries, officers and enlisted men 1023
deaths, battle injuries, officers and enlisted men 1021
discharges for disability, battle injuries, officers and enlisted men 1022
Agents, external, nonbattle injury by:
admissions, by countries, officers and enlisted men 106, 108, 130, 132
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Agents, military, battle injuries by:
admissions, officers and enlisted men, absolute numbers and ratios per 1,000 1019
deaths, officers and enlisted men, absolute numbers and ratios per 1,000 1021
days lost in hospital, officers and enlisted men, absolute numbers and ratios per 1,000 1023
discharges for disability, officers and enlisted men, absolute numbers and ratios per 1,000 1022
Agents, military (poisonous gases excepted), battle injuries, by region and by agent, admissions deaths, and case fatality rates, officers and enlisted men 1024
Agents, military, nonbattle injury by:
admissions by countries, officers and enlisted men 234, 236, 258, 260
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Air machines. (*See* Aëroplane.)
Alcoholism (acute or chronic):
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 834, 836, 838, 858, 860, 862
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions, by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 470, 472, 486
colored enlisted men in the United States 438, 440, 454, 456

Alcoholism—Continued.
admissions, by months—Continued. Page.
enlisted men, color not stated, in Europe 560
white enlisted men in Europe 294, 296, 310, 312

Astigmatism. (*See* Refractive errors.)
Automobiles, injuries by:
admissions for, by countries, officers and enlisted men 106, 108, 130, 132
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Aviation:
admissions and deaths for battle injuries, and killed in action, total officers and enlisted men 1028
admissions, battle injuries, by months, total officers and enlisted men 1025
deaths in hospital, battle injuries, by months, total officers and enlisted men 1026
killed in action, by months, total officers and enlisted men 1027

Back, battle injuries of, by military agent (poisonous gases excepted), single and multiple wounds, admissions, deaths, and case fatality rates, officers and enlisted men 1024
Balanitis:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by months of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months, white enlisted men in the United States 386, 388, 402, 404

Battle injuries:
admissions, officers and enlisted men, absolute numbers and ratios per 1,000 1017
days lost in hospital, officers and enlisted men, absolute numbers and ratios per 1,000 1018
deaths, officers and enlisted men, absolute numbers and ratios per 1,000 1017
discharges for disability, officers and enlisted men, absolute numbers and ratios per 1,000 1018
Battle injuries and killed in action, by arms of service, admissions and deaths for, total officers and enlisted men, absolute numbers, ratios per 1,000, and case fatality rates 1028
Battle injuries, by arms of service:
admissions, by months, total officers and enlisted men, absolute numbers and ratios per 1,000 1025
deaths in hospital, by months, total officers and enlisted men, absolute numbers and ratios per 1,000 1026
Battle injuries, by region and by military agent (poisonous gases excepted), admissions, deaths, and case fatality rates, officers and enlisted men 1024

Page.
Bayonet, battle injuries by:
admissions, officers and enlisted men 1019
days lost in hospital, officers and enlisted men 1023
deaths, officers and enlisted men 1021
discharges for disability, officers and enlisted men 1022
Beriberi:
admissions, by countries, officers and enlisted men 86, 88, 110, 112
days lost, by countries, officers and enlisted men 214, 216, 238, 240
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
Bile-duct, diseases of. (*See* Gall-bladder.)
Bites:
admissions, by countries, officers and enlisted men 102, 104, 126, 128
days lost, by countries, officers and enlisted men 230, 232, 254, 256
discharges for disability, by countries, officers and enlisted men 182, 184, 206, 208
Bladder, diseases of:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions, by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 464, 466
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months, colored enlisted men in Europe 512, 516
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 944, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by months—
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 386, 388, 402, 404
Bones and organs of locomotion, diseases of:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 702, 704, 706, 732, 734, 736
admissions, by countries, officers and enlisted men 102, 104, 126, 128
admissions, by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 230, 232, 254, 256
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 888, 890, 892, 900, 902, 904
white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months—
colored enlisted men in Europe 512, 516
colored enlisted men in the United States 498, 500, 506, 508
enlisted men, color not stated, in Europe 570

Bones and organs of locomotion, diseases of—Continued.
deaths, by months—Continued. Page.
white enlisted men in Europe 358, 360, 370, 372
white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 924, 926, 928, 948, 950, 952

days lost, by countries, officers, and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps), of white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months—
colored enlisted men in Europe 512, 516
white enlisted men in Europe 358, 360, 370, 372
white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 944, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
colored enlisted men in Europe 552, 558
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 386, 388, 402, 404
Cholelithiasis:
admissions and deaths, enlisted men, United States and Europe 578
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 846, 848, 850, 870, 872, 874
white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions, by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 478, 480, 490
colored enlisted men in the United States 446, 448, 462, 464
enlisted men, color not stated, in Europe 564
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292

Cholelithiasis—Continued. Page.
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers and white and colored enlisted men in the United States and Europe 674
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 888, 890, 892, 900, 902, 904
white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months—
colored enlisted men in the United States 498, 500, 506, 508
white enlisted men in Europe 358, 360, 370, 372
white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 944, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in the United States 386, 388, 402, 404
Cholera, Asiatic. (*See* Asiatic cholera.)
Chorea:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions by countries, officers, and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men, in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers, and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 738, 740, 742, 756, 758, 760
deaths, by countries, officers, and enlisted men 138, 140, 154, 156
deaths, by months—
white enlisted men in Europe 350, 352, 362, 364
white enlisted men in the United States 326, 328, 338, 340
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 906, 908, 910, 930, 932, 934
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers, and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in the United States 518, 520, 534, 536
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 378, 380, 394, 396
Choroiditis:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions by countries, officers, and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614

Choroiditis—Continued. Page.
days lost, by countries, officers, and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 912, 914, 916, 936, 938, 940
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers, and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in Europe 550, 556

Clavus:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 702, 704, 706, 732, 734, 736
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharge for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers, and enlisted men 178, 180, 202, 204
discharges for disability, by months, white enlisted men in the United States 386, 388, 402, 404
Cold, excessive, injury by:
admissions, by countries, officers and enlisted men 106, 108, 130, 132
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Colitis. (*See* Enteritis.)
Color blindness:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions, by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 218, 220, 242, 244
Colored enlisted men. (*See* Enlisted men, colored.)
Complications, concurrent diseases, and sequelæ, enlisted men in the United States and Europe, absolute numbers 580–669
Compression of brain, nonbattle injuries:
admissions and deaths, total Army 1015
admissions, by countries, officers and enlisted men 102, 104, 126, 128
days lost, by countries, officers and enlisted men 230, 232, 254, 256
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 182, 184, 206, 208

Page.
Concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe, absolute numbers 580-669
Concussion of brain, battle injuries:
admissions, officers and enlisted men 1017
days lost in hospital, officers and enlisted men 1018
deaths, officers and enlisted men 1017
discharges for disability, officers and enlisted men 1018
Concussion of brain, nonbattle injuries:
admissions and deaths, total Army 1015
admissions, by countries, officers and enlisted men 102, 104, 126, 128
days lost, by countries, officers and enlisted men 230, 232, 254, 256
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 182, 184, 206, 208
Conflagration, nonbattle injuries:
admissions, by countries, officers and enlisted men 106, 108, 130, 132
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Congenital malformations. (*See* Malformations, congenital.)
Conjunctivitis:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions, by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 912, 914, 916, 936, 938, 940
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in Europe 550, 556
colored enlisted men in the United States 522, 524, 538, 540
white enlisted men in Europe 410, 412, 426, 428
white enlisted men in the United States 378, 380, 394, 396
Constitutional psychopathic states. (*See* Psychopathic states, constitutional.)
Contusion, battle injuries:
admissions, officers and enlisted men 1017
days lost in hospital, officers and enlisted men 1018
deaths, officers and enlisted men 1017
discharges for disability, officers and enlisted men 1018
Contusions, nonbattle injuries:
admissions and deaths, total Army 1015
admissions, by countries, officers and enlisted men 102, 104, 126, 128
days lost, by countries, officers and enlisted men 230, 232, 254, 256
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 182, 184, 206, 208
Countries, including transports:
admissions by—
officers and enlisted men, absolute numbers 86–109
officers and enlisted men, ratios per 1,000 110–133
days lost by—
officers, and enlisted men, absolute numbers 214–237
officers and enlisted men, ratios per 1,000 238–261
deaths by—
officers and enlisted men, absolute numbers 134–149
officers and enlisted men, ratios per 1,000 150–165

Countries, including transports—Continued. Page.
discharges for disability by—
officers and enlisted men, absolute numbers 166–189
officers and enlisted men, ratios per 1,000 190–213
Cretinism and myxedema:
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps), for white enlisted men in the United States 678, 680, 682, 708, 710, 712
admissions by countries, officers and enlisted men 86, 88, 110, 112
admissions by months—
white enlisted men in Europe 294, 296, 310, 312
white enlisted men in the United States 262, 264, 278, 280
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 580, 582, 584, 586, 588, 590, 592, 594, 596
days lost, by countries, officers and enlisted men 214, 216, 238, 240
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 670
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
discharges for disability, by months, white enlisted men in the United States 374, 376, 390, 392
Crushing, battle injuries:
admissions, officers and enlisted men 1017
days lost in hospital, officers and enlisted men 1018
deaths, officers and enlisted men 1017
discharges for disability, officers and enlisted men 1018
Crushing, battle injuries, by military agents:
admissions, officers and enlisted men 1019
days lost in hospital, officers and enlisted men 1023
deaths, officers and enlisted men 1021
discharges for disability, officers and enlisted men 1022
Crushing, nonbattle injuries:
admissions by countries, officers and enlisted men 102, 104, 106, 108, 126, 128, 130, 132
days lost, by countries, officers and enlisted men 230, 232, 234, 236, 254, 256, 258, 260
deaths by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 182, 184, 186, 188, 206, 208, 210, 212
Cutting and piercing instruments, battle injuries by:
admissions, officers and enlisted men 1019
days lost in hospital, officers and enlisted men 1023
deaths, officers and enlisted men 1021
discharges for disability, officers and enlisted men 1022
Cutting and piercing instruments, nonbattle injuries by:
admissions by countries, officers and enlisted men 106, 108, 130, 132
days lost, by countries, officers and enlisted men 234, 236, 258, 260
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 186, 188, 210, 212
Cystitis:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566

white enlisted men in the United States 738, 740, 742, 756, 758, 760
deaths, by countries, officers and enlisted men 134, 136, 150, 152
deaths, by months—
colored enlisted men in the United States 494, 496, 502, 504
enlisted men, color not stated, in Europe 568
white enlisted men in Europe 350, 352, 362, 364
white enlisted men in the United States 326, 328, 338, 340
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
discharges for disability, by months, white enlisted men in the United States 374, 376, 390, 392
Erythema:
admissions and deaths, enlisted men, United States and Europe 579
admissions by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 702, 704, 706, 732, 734, 736
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 386, 388, 402, 404
Esophagus, diseases of:
admissions and deaths, enlisted men, United States and Europe 578
admissions, by camps of occurrence, and by States of occurrence (excluding troops in specified camps), for white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions by months—
colored enlisted men in Europe 478, 480, 490
colored enlisted men in the United States 446, 448, 462, 464
white enlisted men in the United States 270, 272, 286, 288
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 616, 618, 620, 622, 624, 626, 628, 630, 632
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by ages, total officers, and white and colored enlisted men in the United States and Europe 674
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months, white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 944, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in the United States 382, 384, 398, 400

Europe:
admissions, by months— Page.
colored enlisted men, absolute numbers 470–485
colored enlisted men, annual ratios per 1,000 486–493
color not stated, absolute number 560–567
white enlisted men, absolute numbers 294–309
white enlisted men, annual ratios per 1,000 310–325
deaths, by months, colored enlisted men, absolute numbers 510–513
colored enlisted men, annual ratios per 1,000 514–517
enlisted men, color not stated, absolute numbers 568–571

white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 386, 388, 402, 404

Gall-bladder and bile-duct, diseases of:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 846, 848, 850, 870, 872, 874
white enlisted men in the United States 696, 698, 700, 726, 728, 630
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 478, 480, 490
colored enlisted men in the United States 446, 448, 462, 464
enlisted men, color not stated, in Europe 564
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months—
white enlisted men in Europe 358, 360, 370, 372
white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability by months—
white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 386, 388, 402, 404

Gangrene:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 702, 704, 706, 732, 734, 736
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650

Gangrene—Continued. Page.
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
deaths, by camps of occurrence and by States of occurrence, (excluding troops in specified camps), white enlisted men in the United States 750, 752, 754, 768, 770, 772
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months—
white enlisted men in Europe 358, 360, 370, 372
white enlisted men in the United States 334, 336, 346, 348
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 944, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
colored enlisted men in Europe 552, 558
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in the United States 386, 388, 402, 404
Gangrene of lungs:
admissions and deaths, enlisted men, United States and Europe 578
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions by countries, officers and enlisted men 94, 96, 118, 120
admissions, by months—
white enlisted men in Europe 302, 304, 318, 320
white enlisted men in the United States 270, 272, 286, 288
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 616, 618, 620, 622, 624, 626, 628, 630, 632
days lost, by countries, officers and enlisted men 222, 224, 246, 248
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 674
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 744, 746, 748, 762, 764, 766
deaths, by countries, officers and enlisted men 142, 144, 158, 160
deaths, by months, white enlisted men in the United States 330, 332, 342, 344
Gas, deleterious:
admissions, battle injuries, officers and enlisted men, absolute numbers and ratios per 1,000 1017
admissions by countries, officers and enlisted men 102, 104, 126, 128
days lost, by countries, officers and enlisted men 230, 232, 254, 256
days lost in hospital, battle injuries, officers and enlisted men 1018
deaths, by countries, officers and enlisted men 146, 148, 162, 164
deaths, officers and enlisted men, absolute numbers and ratios per 1,000 1017
discharges for disability, battle injuries, officers and enlisted men, absolute numbers and ratios per 1,000 1018
discharges for disability, by countries, officers and enlisted men 182, 184, 206, 208
wounds by, and by gunshot missiles, and killed in action, Infantry, Artillery, Machine Gun Battalions, and Engineers, by month and by day 1029–1177
Gas, poisonous, kind not stated, battle injuries:
admissions, officers and enlisted men 1019
admissions, deaths, and case fatality rates, officers and enlisted men 1023
days lost in hospital, officers and enlisted men 1023
deaths, officers and enlisted men 1021
discharges for disability, officers and enlisted men 1022
Gastroenteroptosis:
admissions and deaths, enlisted men, United States and Europe 578
admissions by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 846, 848, 850, 870, 872, 874
white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions, by months—
colored enlisted men in Europe 478, 480, 490
colored enlisted men in the United States 446, 448, 462, 464

Gastroenteroptosis—Continued.
admissions, by months—Continued. Page.
enlisted men, color not stated, in Europe 564
white enlisted men in Europe 302, 304, 318, 320
white enlisted men in the United States 270, 272, 286, 288
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 616, 618, 620, 622, 624, 626, 628, 630, 632
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 674
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 382, 384, 398, 400
General diseases. (*See* Diseases, general.)
General paralysis of the insane. (*See* Paralysis, general, of the insane.)
Genital organs, admissions, deaths, and case fatality rates, battle injuries, by region and by military agent (poisonous gases excepted), single and multiple wounds, officers and enlisted men 1024
Genitourinary system, diseases of (nonvenereal):
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 696, 698, 700, 726, 728, 730
admissions by countries, officers and enlisted men 98, 100, 122, 124
admissions by months—
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566

colored enlisted men in the United States 518, 520, 534, 536
enlisted men, color not stated, in Europe 572
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 378, 380, 394, 396
Neuritis:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 906, 908, 910, 930, 932, 934
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in Europe 550, 556
colored enlisted men in the United States 518, 520, 534, 536
enlisted men, color not stated, in Europe 572
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 378, 380, 394, 396
Neuro-circulatory asthenia (disordered action of the heart):
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 882, 884, 886, 894, 896, 898
white enlisted in the United States 738, 740, 742, 756, 758, 760
deaths, by countries, officers and enlisted men 138, 140, 154, 156
deaths, by months—
colored enlisted men in the United States 494, 496, 502, 504
white enlisted men in Europe 350, 352, 362, 364
white enlisted men in the United States 326, 328, 338, 340

Neuro-circulatory asthenia—Continued.
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)— Page.
colored enlisted men in the United States 906, 908, 910, 930, 932, 934
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in Europe 550, 556
colored enlisted men in the United States 518, 520, 534, 536
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 378, 380, 394, 396
Neurosis:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562

concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 906, 908, 910, 930, 932, 934
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in the United States 518, 520, 534, 536
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 378, 380, 394, 396
Nonbattle injuries. (*See* Injuries, nonbattle.)
North Russia. (*See* Russia, North.)
Nose, external deformity of:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
white enlisted men in the United States 690, 692, 694, 720, 722, 724
admissions by countries, officers and enlisted men 94, 96, 118, 120
admissions, by months—
white enlisted men in Europe 298, 300, 314, 316
white enlisted men, in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 222, 224, 246, 248
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 786, 788, 790, 816, 818, 820
discharges for disability, by countries, officers and enlisted men 174, 176, 198, 200
discharges for disability, by months, white enlisted men in Europe 380, 396, 410, 412, 426, 428
Nystagmus:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284

Nystagmus—Continued. Page.
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers, and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 912, 914, 916, 936, 938, 940
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in the United States 522, 524, 538, 540
white enlisted men in Europe 410, 412, 426, 428
white enlisted men in the United States 378, 380, 394, 396

Obesity:
admissions and deaths, for diseases, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 834, 836, 838, 858, 860, 862
white enlisted men in the United States 678, 680, 682, 714, 716, 718
admissions by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in the United States 438, 440, 454, 456
white enlisted men in Europe 294, 296, 310, 312
white enlisted men in the United States 262, 264, 278, 280
concurrent diseases, complications, and sequelæ, enlisted men, in the United States and Europe 580, 582, 584, 586, 588, 590, 592, 594, 596
days lost by countries, officers and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 670
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 906, 908, 910, 930, 932, 934
white enlisted men in the United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in the United States 518, 520, 634, 636
white enlisted men in the United States 374, 376, 390, 392
Obstruction, intestinal. (*See* Intestinal obstruction.)
Officers and enlisted men:
admissions—
battle injuries, absolute numbers and ratios per 1,000 1017
by countries, absolute numbers 86–109
by military agents, absolute numbers and ratios per 1,000 1019
admissions, deaths, and case fatality rates, battle injuries—
by gunshot missiles, absolute numbers and percentage rates 1023
by poisonous gases, absolute numbers and percentage rates 1023
by region and by military agent (poisonous gases excepted), single and multiple wounds 1024
days lost by countries, absolute numbers 214–237
days lost by countries, ratios per 1,000 238–261
days lost in hospital, battle injuries—
absolute numbers and ratios per 1,000 1018
by military agents, absolute numbers and ratios per 1,000 1023
deaths, battle injuries—
absolute numbers and ratios per 1,000 1017
by military agents, absolute numbers and ratios per 1,000 1021
deaths, by countries—
absolute numbers 134–149
ratios per 1,000 150–165
discharges, for disability, battle injuries—
absolute numbers and ratios per 1,000 1018
by military agents, absolute numbers and ratios per 1,000 1022
by countries, absolute numbers 166–189
by countries, ratios per 1,000 190–213
strength—
by age, United States and Europe 25
by camps and by States (other camps and posts), by months 25
by months, all countries 15

Page.
Officers and enlisted men, total:
admissions and deaths, battle injuries and killed in action, by arms of service, absolute numbers and ratios per 1,000 and case fatality rates 1028
admissions, battle injuries, by arms of service, by months, absolute numbers, and ratios per 1,000 1025
American Expeditionary Forces, strength by arms of service and by months 82
days lost, by countries, absolute numbers 214–237
days lost, by countries, ratios per 1,000 238–261
deaths in hospital, battle injuries, by arms of service, by months, absolute numbers and ratios per 1,000 1026
killed in action, by arms of service, by months, absolute numbers and ratios per 1,000 1027
Officers, total, and white and colored enlisted men in the United States and Europe, deaths and discharges for disability, by age, absolute numbers 670–677
Ordnance:
admissions and deaths, for battle injuries, and killed in action, total officers and enlisted men 1028
admissions, battle injuries, by months 1025
deaths in hospital, battle injuries, by months 1026
killed in action, by months 1027
Organs of locomotion. (*See* Bones and organs of locomotion.)
Osteomyelitis:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880

white enlisted men in Europe 410, 412, 426, 428
white enlisted men in the United States 384, 400
Total Army. (*See* Army, total.)
Trachoma:
admissions and deaths, enlisted men, United States and Europe 577
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 840, 842, 844, 864, 866, 868
white enlisted men in the United States 684, 686, 688, 714, 716, 718
admissions, by countries, officers and enlisted men 90, 92, 114, 116
admissions, by months—
colored enlisted men in Europe 474, 476, 488
colored enlisted men in the United States 442, 444, 458, 460
enlisted men, color not stated, in Europe 562
white enlisted men in Europe 298, 300, 314, 316
white enlisted men in the United States 266, 268, 282, 284
concurrent diseases, complications, and sequelæ, enlisted men, in the United States and Europe 598, 600, 602, 604, 606, 608, 610, 612, 614
days lost, by countries, officers and enlisted men 218, 220, 242, 244
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 672
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 912, 914, 916, 936, 938, 940
white enlisted men in the United States 780, 782, 784, 810, 812, 814
discharges for disability, by countries, officers and enlisted men 170, 172, 194, 196
discharges for disability, by months—
colored enlisted men in Europe 550, 556
colored enlisted men in the United States 522, 524, 538, 540
enlisted men, color not stated, in Europe 572
white enlisted men in Europe 410, 412, 426, 428
white enlisted men in the United States 378, 380, 394, 396
Transports, countries, including:
admissions by—
officers and enlisted men, absolute numbers 86–109
days lost by—
officers and enlisted men, ratios per 1,000 110–133
officers and enlisted men, absolute numbers 214–237
officers and enlisted men, ratios per 1,000 238–261
deaths by—
officers and enlisted men, absolute numbers 134–149
officers and enlisted men, ratios per 1,000 150–165
discharges for disability by—
officers and enlisted men, absolute numbers 166–189
officers and enlisted men, ratios per 1,000 190–213
Traumatisms (nonbattle):
admissions by countries, officers and enlisted men 102, 104, 126, 128
days lost, by countries, officers and enlisted men 230, 232, 254, 256
deaths, by countries, officers and enlisted men 146, 148, 162, 164
discharges for disability, by countries, officers and enlisted men 182, 184, 206, 208
Trench fever:
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 678, 680, 682, 708, 710, 712
admissions by countries, officers and enlisted men 86, 88, 110, 112
admissions, by months—
colored enlisted men in Europe 470, 472, 486
enlisted men, color not stated, in Europe 560
white enlisted men in Europe 294, 296, 310, 312
white enlisted men in the United States 262, 264, 278, 280
concurrent diseases, complications, and sequelæ, enlisted men, in the United States and Europe 580, 582, 584, 586, 588, 590, 592, 594, 596

Trench fever—Continued. Page.
days lost, by countries, officers and enlisted men 214, 216, 238, 240
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 670
deaths, by countries, officers and enlisted men 134, 136, 150, 152
deaths, by months—
enlisted men, color not stated, in Europe 568
white enlisted men in Europe 350, 352, 362, 364
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
discharges for disability, by months—
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 376, 392
Trench foot:
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 834, 836, 838, 858, 860, 862
white enlisted men in the United States 678, 680, 682, 708, 710, 712
admissions by countries, officers and enlisted men 86, 88, 110, 112
admissions, by months—
colored enlisted men in Europe 470, 472, 486
colored enlisted men in the United States 438, 440, 454, 456
enlisted men, color not stated, in Europe 560
white enlisted men in Europe 294, 296, 310, 312
white enlisted men in the United States 262, 264, 278, 280
days lost, by countries, officers and enlisted men 214, 216, 238, 240
deaths and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 670
deaths, by countries, officers and enlisted men 134, 136, 150, 152
deaths, by months, white enlisted men in Europe 350, 352, 362, 364
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
discharges for disability, by months—
colored enlisted men in Europe 550, 556
enlisted men, color not stated, in Europe 572
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 374, 376, 390, 392
Trench mouth:
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 678, 680, 682, 708, 710, 712
admissions, by countries, officers and enlisted men 86, 88, 110, 112
admissions, by months—
enlisted men, color not stated, in Europe 560
white enlisted men in Europe 294, 296, 310, 312
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 580, 582, 584, 586, 588, 590, 592, 594, 596
days lost, by countries, officers and enlisted men 214, 216, 238, 240
deaths and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 670
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps), white enlisted men in the United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
discharges for disability, by months—
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 376, 392
Trichophytosis:
admissions and deaths, enlisted men, United States and Europe 579
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 852, 854, 856, 876, 878, 880
white enlisted men in the United States 702, 704, 706, 732, 734, 736
admissions, by countries, officers and enlisted men 98, 100, 122, 124

Trichophytosis—Continued.
admissions, by months— Page.
colored enlisted men in Europe 482, 484, 492
colored enlisted men in the United States 450, 452, 466, 468
enlisted men, color not stated, in Europe 566
white enlisted men in Europe 306, 308, 322, 324
white enlisted men in the United States 274, 276, 290, 292
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 634, 636, 638, 640, 642, 644, 646, 648, 650
days lost, by countries, officers and enlisted men 226, 228, 250, 252
deaths and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 676
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 918, 920, 922, 942, 444, 946
white enlisted men in the United States 792, 794, 796, 822, 824, 826
discharges for disability, by countries, officers and enlisted men 178, 180, 202, 204
discharges for disability, by months—
colored enlisted men in the United States 526, 528, 542, 544
white enlisted men in Europe 414, 416, 430, 432
white enlisted men in the United States 386, 388, 402, 404
Tricuspid lesions. (*See* Heart, valvular lesions of.)
Tuberculosis:
admissions and deaths, enlisted men, United States and Europe 576
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 834, 836, 838, 858, 860, 862
white enlisted men in the United States 678, 680, 682, 708, 710, 712
admissions, by countries, officers and enlisted men 86, 88, 110, 112
admissions, by months—
colored enlisted men in Europe 470, 472, 486
colored enlisted men in the United States 438, 440, 454, 456
enlisted men, color not stated, in Europe 560
white enlisted men in Europe 294, 296, 310, 312
white enlisted men in the United States 262, 264, 278, 280
concurrent diseases, complications, and sequelæ, enlisted men in the United States and Europe 580, 582, 584, 586, 588, 590, 592, 594, 596
days lost, by countries, officers and enlisted men 214, 216, 238, 240
deaths, and discharges for disability, by age, total officers, and white and colored enlisted men in the United States and Europe 670
deaths, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 882, 884, 886, 894, 896, 898
white enlisted men in the United States 738, 740, 742, 756, 758, 760
deaths, by countries, officers and enlisted men 134, 136, 150, 152
deaths, by months—
colored enlisted men in Europe 510, 514
colored enlisted men in the United States 494, 496, 502, 504
enlisted men, color not stated, in Europe 568
white enlisted men in Europe 350, 352, 362, 364
white enlisted men in the United States 326, 328, 338, 340
discharges for disability, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 906, 908, 910, 930, 932, 934
white enlisted men in the United States 774, 776, 778, 804, 806, 808
discharges for disability, by countries, officers and enlisted men 166, 168, 190, 192
discharges for disability, by months—
colored enlisted men in Europe 550, 556
colored enlisted men in the United States 518, 520, 534, 536
enlisted men, color not stated, in Europe 572
white enlisted men in Europe 406, 408, 422, 424
white enlisted men in the United States 374, 376, 390, 392
Tumors, benign:
admissions and deaths, enlisted men, United States and Europe 576

Tumors, benign—Continued. Page.
admissions, by camps of occurrence and by States of occurrence (excluding troops in specified camps)—
colored enlisted men in the United States 834, 836, 838, 858, 860, 862
